I. Background

Health equipment replaces all the items in traditional beauty salons, from head to toe, facial lift, eye bags, dark circles, shoulder and neck imperfections, breasts, small enlargement, 3 to 5 cm fibroids, lobular hyperplasia, sagging, etc., weight loss, hips, treatment of constipation, stomach cold, palace cold, private, slimming, and also magical effect, it replaces the artificial service, it is made by traditional scraping, pressing, cupping, Massage, walking acupuncture points, through the meridian to the instrument, safe, effective, simple and convenient, no injection, no medicine, no surgery, no side effects, full-time external use and immediate results. The negative pressure health instrument can actively perform dynamic vacuum suction and release on the breast, and effectively deepen the breast to press the muscle movement, deep dredge, and improve the obstruction phenomenon.

A wide range of effects:

1. Breast enhancement, hip lifting (to solve the problem of flat chest, left and right asymmetry, loose hips, sagging, etc.)
2. Correct the breast shape, repair the nipple (to solve the nipple retraction, breast shape and nipple deviation, etc.)
3. Scraping detoxification, cupping
4. Adjustment of endocrine, breast lobular hyperplasia have significant effects
5. Promote uterine contraction, improve sexual apathy
6. Delay menopause, delay aging
7. Improve immunity

The instrument can operate in a wide range of areas, including the face, chest, buttocks, back, abdomen, legs, arms, face, cupping, suction, private tightness, dampness and detoxification, weight loss and so on.

The scraping and cupping is introduced from the inside to the body surface, and finally is emitted from the body surface. The irritating effect of the scraping promotes the peripheral blood flow, and then the blood flow of the whole body also benefits. Cupping is also a physical therapy like acupuncture, and cupping is one of the best treatments in physiotherapy. It is a therapeutic treatment that uses negative pressure to attract it to the skin and cause congestion. When cupping, the jar mouth is at the affected area or acupuncture point, which can slowly absorb the moisture at the symptom, and promote local blood circulation, achieve the purpose of relieving pain and restoring function. There are cold and dampness, dredge meridians, and qi and blood circulation. Swelling and relieving pain, detoxification and diarrhea, adjusting the balance of yin and yang of the human body, relieving fatigue and enhancing physical function.

II. Functions

I . Facial Care

I. Main functions

1. Improve wrinkles and fine lines.

III. systemic lymphatic drainage

I. Working Principles

The lymphatic system is a circulatory system, and the immune system. It is also the body's defense station and recycling garbage station. It prevents external bacterial infection and recovers garbage and toxins from the body. Lymph is also the body's largest detoxification system.

Corresponding to the scavenger in the human body, it is the main medium for collecting toxins from various organs of the human body. If the lymphatic system slows down, it will cause toxins to accumulate in the body, and people will easily become edema and gain weight. The principle of weight loss of lymphatic drainage massage is mainly through the massage and stimulation of lymph glands, dredging the lymphatic circulation system, promoting the excretion of toxins in the body, accelerating fat burning, and achieving the purpose of losing weight. Lymphatic detoxification also has a very important role in allowing our blood vessels to be well cleaned, lymphatic drainage, lymphatic vessels and veins. When the blood volume is too much, the lymphatic vessels can act as a fluid to reduce the burden on the blood vessels. effect.

As the age of the human lymphatic system increases, the speed of circulation may decrease, and the effect of detoxification will also decrease. The appropriate massage can effectively accelerate the circulation rate of the lymphatic system, so that the toxin can be excreted as soon as possible.

II. Main functions

1. Accelerate lymphatic flow
2. Accelerate the process of natural detoxification, help the body to remove waste through the lymphatic system
3. Stimulate lymphoid activity
4. Increase lymphocyte productivity
5. Improve body metabolism
6. Promote The function of the immune system.

III. Applicable people

1. People with lack of luster on the face, skin becomes very rough,
2. People who drink often and often suffer from insomnia;
3. People with waist and abdomen obesity can quickly improve edema and consume fat through lymphatic detoxification;
4. people who have bad breath and are often constipated.
5. Poor mental state, poor resistance, easy to catch cold and sick people.

IV. Taboo people

1. Three high population and heart disease patients,
2. Pregnancy period, lactation period
3. The surgical wound is healing or recovery period

-
4. Patients with epilepsy and severe diabetes and hyperthyroidism
 5. Patients with malignant tumors and patients with hemophilia or severe bleeding
 6. Patients with skin diseases and infectious diseases.
 7. Patients with severe gynecological diseases
 8. The population during the treatment of gynecological diseases
 9. Have lymphatic cancer patients or signs of cancer
 10. People who are too weak.

IV. Breast therapy

I. Main function

1. The equipment adopts the effect of vacuum negative pressure on the human body. It is attracted by the special tool in the breast through the negative pressure inside the instrument, and the negative pressure of different rhythm is generated in the breast, so that the breast body is relatively lifted, and the effect of increasing the breast is achieved.
2. The negative pressure inside the cup can make the local capillaries congestion, stimulate the organs, enhance the cell vitality, promote the functional activities, and improve the body's resistance;
3. The mechanical stimulation of negative pressure, transmitted to the central nervous system through the reflex pathway, can regulate the nerve activity tends to balance.
4. During the operation, the inspiratory deflation, the increase of negative pressure and the disappearance of the negative pressure make the local pores continue to open and close, promote skin respiration, increase the oxygen absorption, and speed up the waste elimination.
5. It has the functions of warming meridians and collaterals, promoting qi and activating blood circulation, opening and relieving phlegm, dispersing phlegm and swelling, eliminating poison and exorcism.
6. Combined with deep massage to smooth blood, clear breast acinus, invisible gas to drive tangible blood, oxygen and nutrients to the breast, and stimulate the pituitary gland to secrete female hormones, strengthen breast connective tissue,

stimulate breast growth.

7. Promote uterine contraction, tighten skin elastic fibers, prevent skin tissue from loosening and dispersing.

II. Applicable people

1. People whose chest is small, sagging, external expansion, asymmetry, flat.
2. People who has breast hyperplasia, nipple retraction and who want a better and healthier breast shape.

7. The chest stiffness after breast augmentation surgery, Unsuitable intensity is too large.
8. Selecting the peak of hormone secretion (the fourth day after menstrual period) is better for breast treatment.

V .Buttocks therapy

I. Main function

1. Negative pressure inside the cup can make local capillary congestion, stimulate organs, enhance cell vitality, promote functional activities, improve the body's resistance;
2. Mechanical stimulation of negative pressure, transmit to the central nervous system through reflex pathway, regulate nerve Activities tend to be balanced.
3. During the operation, the inspiratory deflation, the increase of negative pressure and the disappearance of the negative pressure make the local pores continue to open and close, promote skin respiration, increase the oxygen absorption, and speed up the waste elimination.

II. Applicable people

1. The hips are sunken, flat, not sexy enough;
2. The hips are less fat, flat and no type;
