This product is intended for home use and cosmetic purpose only, using this product for treating any medical condition or illness is not supported by the manufacture.

SMART V Skin Renewal System

Congratulations on your purchase
To fully benefit from the support that our offers, please read the user manual carefully before you use the appliance and save it for future reference.

Thank you for purchasing our new SMART V device-3IN1 Skin Renewal System. This new clinical skin renewal device is adapter for home use, so you can enjoy professional, clinical, aesthetic skin treatment results at home with a safe, effective and easy-to-use device. For the first time, you'll experience real gain without any pain.

Our SMART V is the only scientifically proven home device that generates a real change, starting from within. Treatments will tighten the skin, reduce fine lines and wrinkles, leaving it radiant, youthful and glowing.

Powered by the revolutionary patented SMART RF technology that focuses RF energy deep into the dermis, much like a laser lens focused lights. The SMART RF power stimulates dermal activity, tightening collagen fibers and increasing new collagen production. The skin becomes tighter, more supple, with significant reduction of fine lines and wrinkles. In a short time, it effectively reverses the signs of aging, easily adjusting to all skin types and colors.

- **The best alternative to face-lift surgery, botox and other professional procedures.**
- **Painless, safe and pleasant, offering an enjoyable self-treatment at home.**
- **Scientifically and clinically proven to produce real, measurable and long-lasting results.**

4.Function Introduction

What is does

This instrument focused on the following problems.

-Tighten sagging skin, brighten skin tone.

- Reduce wrinkles and fine lines, smooth cellulite.

- Improve skin elasticity and skin texture.

Principle of Instrument

SMART RF Therapy

It utilizes a special technology of touch sensor, can commend inner RF procedure to emit RF energy from low to high adjusted automatically upon skin's temperature, focuses power which can up to 40-50 celsius deep into the dermis, thus dermis collagen may immediately shrink after wrinkle treatment, client may immediately sense the skin tightening effects as it isbeing liftedand firmed.

Photon Therapy

Red LED photon with wavelength of 625+/-3nm can whiten and lighten dark spots, tender skin and dispel wrinkles, repair damaged skin, heal slender wrinkles, tighten pores, and proliferate collagen protein.Blue LED photon with wavelength of 465+/-3nm can diminish inflammation, battle bacterium and propionibacterium acne, treats acne and scars.

Vibration Massage

Vibration massage can relieve acne, relieve fatigue, and refine skin molecules with 3 million hertz to help deliver skin care nutrients deep into the skin, effectively tighten skin.

5.How to use

What to prepare

Personal Preparation

The best time for treatment is after bath and before sleep. Generally, the idealresults can be achieved after 2 weeks of treatment following the recommended frequency. Later, you can reduce the frequency as according to your skin condition.

Test this equipment on the wrist before using on your face.

Device preparation

Firstly, Connect the device with power supply correctly, make sure it is well charged.

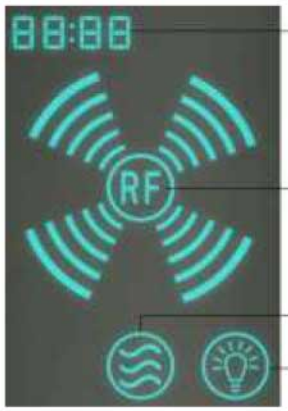
Secondly, please take one piece of cotton on the probe, then fix the cotton by cotton holder.

Thirdly, Press the ON/OFF button for about 4 seconds to switch the device.

Introduction to the keys

Power/Mode Power on/off, it is connected with the power supply to be charged.Mode selection: Press “MODE” to select the desired function, the function will beflashing when selected; It will automatically shut down in 6 seconds if there is no further operation.

LEVEL Level adjustment: Select”MODE”, Press ”LEVEL” key to adjust the levels RF- 5 Levels.



Working time (default 30 minutes)

RF: 5 Levels

Vibration Massage

Photon: Red Blue two modes

Daily Skincare

- Here is just a general introduction of home use, for more details, please consult a professional beauty consultant or a doctor.
- Apply 4-5g cosmetic essence such as model OT-AC073 on each treatment area.

Tips: Please keep the SMART V probe in full contact with the skin during treatment, move the probe on the surface ofthe cared area, in an even and thorough way.

Important:The most important thing is to choose suitable cosmetics for your skin.It is not only for therapy, but also an important foundation to providenutrient to your skin. Therefore, be careful to select the right cosmetics.

Daily Face Care

Use three times per week at most, no more than 30 minutes each time to achieve the best result.Choose function&levels according to your skin type.

Step1: Skin clean
