

User Manual

WL-WD677

Foreword

Dear Users:

We're pleased to present you WL-WD677, the multifunctional beauty device that's featuring in fat-blasting, firming, body-sculpting, lifting and anti-aging. It works effectively on wrinkle removal on face and eyes and fat-dissolving so as to shape up your body. By utilizing high-end technology, it delivers a safe and effective skin care experience and effect. WL-WD677 is professional beauty device is for professional use only, which needs to be handled by professionals with proper training. Any improper use will result in adverse consequences. Therefore we advise any personnel read this manual thoroughly and apply with the instructions strictly before operation.

We believe our quality product will bring in good returns on your end. Also, you can count on our worry-free after-sales service.

Thank you!

Part I

Brief Introduction

RF and ultrasonic beauty machines are currently the most popular beauty devices in beauty parlors that featuring in firming, body-sculpting and anti-aging. It's a good replacement for various of facial and body care programs in beauty salon, including weight loss and body-sculpting, etc. It delivers a safe, comfortable and and effective skincare experience. At the same time, it requires no injection, no medication and no surgery. It is used externally throughout the entire process and has an immediate effect. RF beauty device heat up deep skin layers, stimulate collagen regeneration, accelerate blood circulation on hypodermis, thus achieving effects like firming, plumping, anti-aging and so on.

Advantages

1. Multifunctional beauty machine that works on both of your facial and body care.

2. Ultrasonic fat burning replaces and transcends liposuction, bringing good news for treating obesity
3. Various work heads can be replaced in different parts according to different requirements.
4. The perfect combination of ultrasound and radio frequency solves the dilemma of losing weight. It helps with weight loss while at the same time maintains firm skin, increases skin elasticity, metabolism, and ultimately better health.
5. Adopting the cutting-edge technology of ultrasonic fat burning with a wider rangel and faster and more visible results.
6. Painless, non-invasive during the process. Skipping any recovery periods without affecting any work and life plans.
7. No consumption, low cost and quick returns.
8. Unevenness, bleed, swelling and stasis will not appear after treatment.
9. Ultrasound, negative pressure and radio frequency all have the energy release of red light respectively. They can dissolve fat and massage while at the same time accelerate metabolism, and sterilize skin. The effect is remarkable with a higher comfort level.
10. Red light RF is with a more effective result.
11. HIFU is with a higher energy level and evenness.

Facial Firming

Principle

BIO

BIO Cell Activation Instrument, which imitates human biological current, enters muscle cells through skin, stimulates ATP contained in cells, and restores normal operation and function of cells. It collects the latest technology to shape facial contour, thin face, reduce double chin and wrinkles and shrink pores for customers in the shortest time possible. BIO makes facial muscles tight and delicate, and rosy cheeks will appear naturally . It is more effective on loose skin, so as to achieve the goal of shaping a beautiful face.

RF

Radio frequency can alternates electrical polarities of biological tissues on the treated area millions of times per second and change directions in the same frequency concurrently. In the rapid change of electrodes, the dermal tissue naturally resists the radio frequency current and generates thermal energy, which stimulates the dermis to produce more collagen and fill up the gap of the lost collagens, therefore plumping up the skin and revive elasticity.

During multipolar RF treatment, polarities alternate consecutively, which produces a higher intensity energy release, heats up the bottom layers of skin. Through fast and consecutive heating of tissues, collagen regeneration is boosted, thus having a more visible result in a shorter period of time. It also comes with a wider and more intensifies treatment scope.

Biological Effect

Radio frequency can shake millions of high frequency radio waves per second, penetrate the epidermis, directly act on the dermis, deep heat collagen cells, stimulate the growth of collagen fibers, so that it has a large number of new collagen support, making the skin more compact and elastic.

Every time energy comes into the skin, it feels a temporary sense of heat. This means that collagen has been stimulated to produce fever, resulting in tightening of the skin. While operating sliding, the radio frequency wave emitted by the therapeutic head of the super-frequency wave system, under the cold protection of the epidermis, has acted on the deep dermis through the epidermis, rapidly heating water molecules to produce safe Bio-thermal energy. When the natural friction of collagen tissue is heated up to 45°C~60°C, it will shrink immediately and stimulate the collagen to grow continuously. At the same time, bio-heat can effectively accelerate blood flow in adipocytes, and release free fatty acids (ffa), thereby increasing the dissolution of superficial fat, and achieve the purpose of tightening and lifting the sagging part of the body.

Effects

1. Firm and elevate, increase skin elasticity.
2. Improve sagging and loose skin; wrinkle removal.
3. Help absorb and lock nutrients; smooth skin.
4. Accelerate metabolism and blood circulation in hypodermis for healthier skin.
5. More plump and elastic skin.

Applicable Range

1. Those with facial dullness.
2. Those with skin relaxation and sagging.
3. Those with dark circles, eye bags, fine lines, nasolabial folds, crow's feet.
4. Those with lax skin after birth.
5. Those who are lacking in elasticity.

Inapplicable Range

1. Those who have just undergone plastic surgery which have implanted prostheses, metal materials and so on.
2. Those who recently experienced certain injections, such as hyaluronic acid, intradermal injection, wrinkle removal, or plastic surgery.
3. Those with hypertension, heart disease, diabetes, severe thyroid and malignant tumors.
4. Those who are having an allergic reaction, or people with severe sensitive skin or allergic to metals.
5. Those with skin trauma or wound.
6. Those who are overaging.
7. Those in menstruation, pregnancy, lactation, surgical recovery.
8. Those with skin diseases and infectious diseases.
9. Those who are unrealistic about the effects.

Notes after Operation

1. Do not wash your face with overheated water within three days (lukewarm or cold water can be used).
2. Strengthen moisturizing and sunscreen.
3. Do not soak in hot springs, steam saunas or exercise strenuously, etc. within three days.
4. Use facial masks at least three times a week.
5. Spicy, greasy food should be avoided. Staying up late, smoking and drinking are prohibited. More vegetables, fruits, and less greasy food.
6. Avoid food that will cause 'three Hs'(high blood pressure, high cholesterol and high blood sugar), less greasy food is advised.

Eyes Wrinkle Removal

Principle

BIO

The combination of micro-current and inductive current has a strong cosmetic effect. The function of microcurrent is to increase the synthesis of ATP (adenosine triphosphate), which is five times higher than usual. It can provide muscle and body energy, make you look energetic; Improve the permeability of cells, 30% - 40% higher than usual, help the human body better absorb nutrients and water, oxygen-containing blood, etc., and remove waste and toxins as soon as possible. Promote the synthesis of muscle fibers, 68% higher than usual, keep the skin moist, soft, compact and lustrous; Increase the level of collagen synthesis to 73%, reduce wrinkles, make the skin more soft, elastic and lustrous. The function of induced

current is to balance cell's electric potential, increase cell ATP, accelerate blood circulation, improve collagen synthesis and increase skin elasticity.

BIO Cell Activation Instrument, which imitates human biological current, enters muscle cells through skin, stimulates ATP contained in cells, and restores normal operation and function of cells. It collects the latest technology to shape facial contour, thin face, reduce double chin and wrinkles and shrink pores for customers in the shortest time possible. BIO makes facial muscles tight and delicate, and rosy cheeks will appear naturally . It is more effective on loose skin, so as to achieve the goal of shaping a beautiful face.

Effects

1. Relieve eye fatigue, dark circles, bags and edema.
2. Reduce lines around eyes and crow's feet.
3. Reduce dark spots and accelerate blood circulation.
4. Accelerate metabolism and prevent hyperpigmentation.
5. Supplement nutrition to the eyes and moisturize skin.
6. Tighten and soften skin, lift the corners of the eyes.
7. Accelerate blood circulation around eyes and help skin absorb nutrients efficiently.

Applicable Range

1. Those with wrinkles, fine lines, bags and dark circles around the eyes.
2. Those with dry skin, dry lines and dynamic wrinkles.
3. Those with eyes prone to fatigue and dryness.
4. Those frequently face computer screens and mobile phones.
5. Those who often stay up late and have dark circles.
6. Those often stay in a dry or hot environment.

Inapplicable Range

1. Those who had just undergone plastic surgery.
2. Those with hypertension, heart disease, diabetes, severe thyroid and malignant tumors.
3. Those who are having an allergic reaction, or people with severe sensitive skin or allergic to metals.
4. Those with skin trauma or wound.
5. Those who are overaging.
6. Those who are pregnant or convalescents.
7. Those with skin disease and contagious diseases.

Notes after Operation

1. Avoid excessive exposure to the sun. Sun protection is encouraged.
2. After operation, the treated area is relatively dry, moisturizing and sun protection is encouraged.
3. Within 1-3 days after operation, it is better not to use alcohol, AHA or other exfoliating products.
4. Avoid facial washing with overheated water, sauna steaming, hot springs or other strenuous exercise within 7 days after operation.
5. Moisturizers and eye masks are encouraged to use, preferably 3 times or more on eye masks a week.

Shaping Waist & Abdomen

Principle

40K RF

Using the sound wave with a frequency of 4 MHz emitted by the strong sound wave head gathering strong sound waves, human adipocytes can produce a strong impact and friction movement between adipocytes after entering the human body, which can effectively consume heat, water and shrink adipocytes. In addition, when sound waves vibrate, it can make adipocytes smaller. Strong crack will come along, cells will burst instantly, adipocytes reduce, so as to achieve the effect of fat removal.

Cavitation Principle of Ultrasound: Tens of thousands of tiny bubbles, namely cavitation bubbles, are produced by vibration of liquid. These bubbles grow in the negative pressure region formed by the longitudinal propagation of ultrasound, and close rapidly in the positive pressure region, thus being compressed and stretched under alternating positive and negative pressures. The bubbles will be compressed until burst, which will generate huge instantaneous pressure, generally up to tens of MPa to hundreds of MPa, and produce strong vibration and noise.

Advantages: only aim for low-density adipose tissue in a specific frequency, protect high-density tissue such as vascular and nerve tissue.

Negative Pressure RF

Massage skin and muscles with the special negative pressure suction head, which can effectively improve body fluid flow and increase cell activity to achieve effects like improving skin elasticity, accelerating blood circulation of capillary blood vessels, clearing out toxins through lymphatic drainage, and improving and lowering the occurrence of dark spots, hyperpigmentation and blood stasis. Coupled with all sorts of massage techniques, release and suction function of negative pressure can achieve

firming and shaping of body.

1. Skin layer

The absorption and discharge of air pressure:

(1) It can improve the fluidity of cells, thus increasing the movement of cells, and can treat diseases related to blood stasis and blood stagnation.

(2) draining lymph glands and veins.

Effects: redundant water is discharged from tissue fibers.

2. Vascular layer

The absorption and discharge of air pressure

(1) Improve the blood circulation of microvessels, not only for the capillary system, but also the flow between the deeper veins and lymphatic networks.

(2) Remove excess toxins in the body.

Effects: Strengthen blood vessels, eliminate toxins and relieve varicose veins.

3. Fibrous layer

The absorption and discharge of air pressure

(1) Repair cell tissue, increase its activity and elasticity.

(2) Stimulate the production of bone collagen and improve skin plumpness.

(3) Improve the support capacity of skin and increase the consumption of carbon dioxide.

Effects: Break the hard fibers of cellulite, make it more elastic, so as to achieve the effect of body-shaping.

Effects

1. Improve loose and soft waist and abdomen skin.
2. Improve unwanted fat on waist and abdomen, such as swimming rings, and beer belly.
3. Tighten skin, improve stretch marks, fat marks and increase skin elasticity.
4. Accelerate metabolism, improve constipation and intestinal peristalsis.

Applicable Range

1. Those with cold hands and feet, cold womb and body.
2. Those with unwanted fat on waist and abdomen, protruding beer belly, postpartum loose skin.
3. Those who sit for long hours, and desire a curvier waistlines.
4. Those with fat marks, stretch marks
5. Those with constipation, and abdominal meridian blocking.

Inapplicable Range

1. Those with 'three Hs' (hypertension, hyperlipidemia, hyperglycemia) and heart disease.
2. Those who are during pregnancy, menstruation and lactation.
3. Those whose surgical wound is healing or convalescence.
4. Those with epilepsy, severe diabetes and hyperthyroidism.
5. Those with malignant tumor and hemophilia or severe bleeding.
6. Those with skin diseases and infectious diseases.
7. Those with severe gynecological diseases.

Notes after Operation

1. Avoid wearing crop tops, and exposure to wind and cold.
2. Avoid overeating, staying up late, drinking, eating raw, cold, spicy and greasy food, and drinking more hot water.
3. Keep your abdomen warm and bathe 4-6 hours after the treatment.
4. Avoid sauna, hot spring or strenuous exercise within 7 days after operation.
5. Before going to bed at night, you can knead your abdomen clockwise with your hands to make the metabolic effect of weight loss better.

Warm womb & detoxification

Ovary is an important organ of women, and can stimulate the hormone secretion of women again, increase the level of hormones in the body, also known as the source of life of women. Good ovarian maintenance can make facial skin fine, smooth and fresh, always maintain toughness and elasticity. It can also promote reproduction and body health, regulate and secrete female hormones, and improve the quality of life of both sexes. Ovarian health can make a woman's bosom plump, compact, and mellow. Bad ovarian function will affect estrogen secretion, sexual function, quality and color of skin, and women BWH(bust,waist,hip) measurements, which results in yellowish face, bloated body, vaginal dryness, and advance entering to anile condition. So ovarian maintenance is very important for women. Women now have a lot of bad habits, such as dressing for grace and does not care about temperature, in addition to that they often eat some cold food. If continuous for a long time they are prone to have cold womb, which can cause symptoms such as dysmenorrhea, menstrual edema and even amenorrhoea. In a word cold womb does great harm to the health of women, so be sure to take means to warm the womb,which can also achieve the effect of body-shaping.

Principle

RF

RF energy works directly on the dermis through the skin epidermis and heats up the body, with its temperature reaching 40 °C-60 °C. Through biothermal effect it enhances the blood circulation and lymph circulation of the cervical region, fast decompose adipose tissue metabolism, thereby to regulate the uterus, increase the period flow, which is good for inhibiting cold womb.

Negative Pressure RF

Through special negative pressure suction head on the skin, and muscle massage, can effectively improve the cells in the body fluids liquidity, increase cell movement can activate cells to improve the effect of skin elasticity, at the same time, accelerate the blood circulation of imperceptible blood-vessel, excess toxins through the lymphatic system the normal cycle of body outside, to reduce and improve the dark spots and pigment, as well as blood stasis.

Advantages: breaking through the previous single and simple working mode of negative air pressure, using different modes for different parts can be more efficient and more effective, slimming, shaping, and will never harm human body. Unique RF functional head design, RF and negative pressure are relatively independent but complementary to each other as one of the metabolic system, deep heating while helping massage and metabolism, so that the effect is twice the result with half the effort.

Effects

1. Improve women's gynecological problems.
2. Improve women's cold hands and feet, cold womb and body.
3. Regulate the function of female reproductive system and enhance the ovarian function.
4. Promote follicular development and regulate the secretion of sex hormones (estrogen, progesterone, androgen).
5. Maintain youthful appearance, delay the arrival of menopause and delay aging.
6. Tighten skin, improve stretch marks and increase skin elasticity.

Applicable Range

1. Those with cold hands and feet, cold womb and body.

2. Those with gynecological inflammatory menstruation and dysmenorrhea.
3. Those whose faces begin to sag.
4. Those who are prone to sore and soft waist.
5. Those with cold abdomen and protruding lower abdomen.

Inapplicable Range

1. Those with 'three Hs' (hypertension, hyperlipidemia, hyperglycemia) and heart disease.
2. Those who are during pregnancy, menstruation and lactation.
3. Those whose surgical wound is healing or convalescence.
4. Those with epilepsy, severe diabetes and hyperthyroidism.
5. Those with malignant tumor and hemophilia or severe bleeding.
6. Those with skin diseases and infectious diseases.
7. Those with severe gynecological diseases.

Notes after Operation

1. Avoid wearing crop tops, and exposure to wind and cold.
2. Avoid overeating, staying up late, drinking, eating raw, cold, spicy and greasy food, and drinking more hot water.
3. Keep your abdomen warm and bathe 4-6 hours after the treatment.
4. Avoid sauna, hot spring or strenuous exercise within 7 days after operation.

Tighten Breasts

Principle

RF

Through radio frequency heating to produce specific RF waves in the subcutaneous specific depth, through the skin epidermis direct effects on the dermis, allowing organizations to heat, promote the catabolism of subcutaneous fat, at the same time stimulate collagen and elastic fibers hyperplasia restructuring, with the newborn dermis collagen and rearrange, lets loose skin after the treatment, immediately feel up, tight shaping effect. The form that massages at the same time promotes mammary blood to circulate, make blood accelerate circulatory dredge the clot of siltation and silt gas, will adipose below the circumstance of vibration, free to bosom. At the same time make more nutrition absorption to the breast, not only prevent lobular hyperplasia and the generation of breast cancer, but also let you have a natural, healthy, beautiful, strong breast, let the women who love the United States more confident.

Effects

1. Adjust breast shape and improve auxiliary breast.
2. Improve chest nodules, slight hyperplasia, and relieve menstrual breast swelling.
3. Improve chest enlargement.
4. Improve irregular menstruation and lack of elasticity of facial long spots.
5. Improve postpartum breast atrophy, breast laxity, and breast duct blockage.

Applicable Range

1. Those whose breasts are not good-looking and with auxiliary breasts.
2. Those with nodules in the chest, slight hyperplasia, and breast swelling pain during menstruation.
3. Those whose breast fat is free, saggy and outward expanding.
4. Those with low immunity.
5. Those with irregular menstruation, lack of elasticity of the face long spot crowd
6. Those who feel they have inadequate breasts.
7. Those with postpartum breast atrophy and breast relaxation.

Inapplicable Range

1. Those with cardiovascular and cerebrovascular diseases, diabetes, abnormal coagulation function, and impaired vital organs.
2. Those who are long-term or currently taking anticoagulant drugs, vasodilators, corticosteroids and other drugs.
3. Those whose chest skin has infection foci.
4. Those with severe fibroma and cyst of the chest.
5. Those who are during pregnancy and lactation.
6. Those who just had breast enlargement surgery.

Notes after Operation

1. Drink plenty of warm water and keep warm.
2. Wear undergarments that are designed to be comfortable, and don't squeeze your breasts.
3. Avoid exposure to cold air and shower 4-6 hours later.

Body-Sculpting

RF

Through radio frequency heating to produce specific RF waves in the subcutaneous specific depth, through the skin epidermis direct effects on the dermis, allowing organizations to heat, promote the catabolism of subcutaneous fat, at the same time stimulate collagen and elastic fibers hyperplasia restructuring, with the newborn dermis collagen and rearrange, after treatment, can make droopy skin feel up, tight shaping effect.

Biological Effect

Radio frequency can vibrate 1 million high-frequency radio waves per second, penetrate the epidermis layer, directly act on the dermis, deep heating collagen cells, stimulate the growth of collagen fiber, make it have a lot of new collagen support, make the skin become firmer and elastic. Acting on the deep dermis through the epidermis, water molecules are rapidly heated to produce safe biological heat. When the natural friction of collagen tissue is heated up to $45^{\circ}\text{C}\sim 60^{\circ}\text{C}$, it will immediately contract and stimulate the continuous growth of collagen. At the same time, biothermal energy can effectively accelerate the blood flow in fat cells and release free fatty acid (ffa), thereby increasing the dissolution of superficial fat and achieving the purpose of tightening the lifting and sagging parts of the body.

Ultrasound

Using the sound wave with a frequency of 4 MHz emitted by the strong sound wave head gathering strong sound waves, human adipocytes can produce a strong impact and friction movement between adipocytes after entering the human body, which can effectively consume heat, water and shrink adipocytes. In addition, when sound waves vibrate, it can make adipocytes smaller. Strong crack will come along, cells will burst instantly, adipocytes reduce, so as to achieve the effect of fat removal.

Cavitation Principle of Ultrasound: Tens of thousands of tiny bubbles, namely cavitation bubbles, are produced by vibration of liquid. These bubbles grow in the negative pressure region formed by the longitudinal propagation of ultrasound, and close rapidly in the positive pressure region, thus being compressed and stretched under alternating positive and negative pressures. The bubbles will be compressed until burst, which will generate huge instantaneous pressure, generally up to tens of MPa to hundreds of MPa, and produce strong vibration and noise.

Advantages: only aim for low-density adipose tissue in a specific frequency, protect

high-density tissue such as vascular and nerve tissue.

Negative Pressure RF

Massage skin and muscle with special negative air pressure suction head can effectively improve fluid mobility of human cells and activate cells. Kneading effect generated by vacuum negative pressure liposuction can increase tissue activity of skin and muscle, thus helping to reduce rigid honeycomb tissue and increase skin tissue elasticity. In addition, the use of negative pressure adsorption and mobile role, can effectively shape shape, make thin and plastic at the same time to complete.

Advantages: breaking through the previous single and simple working mode of negative air pressure, using different modes for different parts can be more efficient and more effective, slimming, shaping, and will never harm human body. Unique RF function head design, RF and negative pressure are relatively independent but complementary metabolic system as a whole, RF has negative pressure, negative pressure has RF, each other as a whole. Compared to the ordinary single-stage RF can be more effective, faster and more uniform perfect remodeling body.

Body-Sculpting: Arms

Effects

1. Stimulate collagen hyperplasia in the bottom of the skin to shape and firm it.
2. Improve loose skin.
3. Improve worship sleeves and thick arms.
4. Soothe and firm loose skin.
5. Dissolve the fat, and say goodbye to flabby arms.
6. Accelerate blood circulation and dredge channels and collaterals.

Applicable Range

1. Those with thick arms and want to look better in clothes.
2. Those with jiggly and flabby arms.
3. Those with loose arm skin.
4. Those whose arms are prone to pain and numbness.

Inapplicable Range

1. Those who have just had plastic surgery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant

tumor, etc.

3. Those who are during allergic period and has severely sensitive skin.
4. Those with skin trauma or cut.
5. Those who are overly old.
6. Those who are pregnant and who are recovering from surgery.
7. Those with skin diseases and infectious diseases.

Notes after Operation

1. Keep warm after operation. Do not eat cold food.
2. 4-6 hours later in the shower.
3. Drink plenty of warm water to stay hydrated.
4. Refuse to overeat or stay up late.
5. Avoid sauna, hot spring or strenuous exercise within one week after operation.

Body-Sculpting: Back

Effects

1. Relieve shoulder and back soreness, and improve the lump on back of the neck.
2. Dredge channels and collaterals, and improve channels and collaterals blocking.
3. Increase blood circulation and metabolism.
4. Improve blood supply to the head and sleep.
5. Regulate the functions of viscera and strengthen the body.
6. Firm skin and prevent sagging.
7. Improve excess fat on the back and shape the back.

Applicable Range

1. Those with sore shoulders and backs and stiff necks.
2. Those with insomnia, dreaminess and fading memory.
3. Those who are prone to fatigue, drowsiness and poor circulation of qi and blood.
4. Those with thick back and want to look better in clothes.
5. Those who has a lump on back of the neck.

Inapplicable Range

1. Those with metal implants in the body, such as stents and pacemakers, are allergic to metal.
2. Those are during pregnancy, menstruation and lactation.
3. Those whose surgical wound is healing or convalescence

4. Those who has “three Hs” , heart disease, epilepsy and severe diabetes and hyperthyroidism.
5. Those with malignant tumor and hemophilia or severe bleeding.
6. Those with skin diseases and infectious diseases.
7. Those who are too weak.
8. Those who are drunk, full, empty, thirsty and overworked.

Notes after Operation

1. Keep warm, avoid cold air and drink plenty of hot water.
2. Shower 4-6 hours after operation.
3. Avoid staying up late, drinking and overeating.
4. Avoid raw, cold and spicy foods and get enough sleep.
5. Avoid shoulder-baring and backless clothing.

Body-Sculpting: Buttocks

Buttocks are located in the middle of human body, and are the key hub of meridian qi and blood operation. They are the main switch of six meridian and also the bridge connecting the upper jiao qi and blood operation of human body. They are the important factor of the body management whose S curve increases the feminine charm.

Effects

1. Improve blood circulation and speed up metabolism.
2. Improve menstrual pain, irregular menstruation, abnormal leucorrhea and other female diseases.
3. Improve sleep quality, improve female sexual function and tighten the vagina.
4. Activate the warm nest function, stimulate the secretion of glands, and increase the feelings between husband and wife.
5. Make complexion ruddy, fade color spots and return to young state.
6. Shape hips, improve sagging and outward expansion of hips, tighten skin and increase elasticity.

Applicable Range

1. Those with saggy hips and fat accumulation.
2. Those whose butt shape is not good-looking, flat and soft outward expansion.
3. Those with cold and cool hips with low hip temperature.
4. Those with dysmenorrhea, dysmenorrhea, irregular menstruation, gynecological inflammation and other problems.

5. Those with decreased estrogen levels and poor sex lives.

Inapplicable Range

1. Those who are in menstruation, pregnancy, lactation and operation recovery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc
3. Those with skin diseases, patients with infectious diseases and skin sensitive period.
4. Those with wounds during recovery from surgery.
5. Those with allergic and severely sensitive skin.
6. Those who have just had liposuction.
7. Those who are overly old.

Notes after Operation

1. Keep hips warm and avoid wearing miniskirts and shorts.
2. Shower 4-6 hours after operation.
3. Drink plenty of hot water to avoid cold air.
4. Avoid staying up late, drinking and overeating.
5. Avoid eating raw, cold and spicy foods and get enough sleep.
6. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.

Body-Sculpting: Legs

Effects

1. Tighten skin and prevent sagging.
2. Stimulate collagen regeneration and improve fat lines.
3. Increase leg circulation and detoxification metabolism.
4. Promote blood circulation and remove blood stasis, dredge channels and collaterals, and prevent varicose veins.
5. Tighten legs more than proud flesh and shake off big legs.

Applicable Range

1. Those with poor circulation of lower limbs, edema and obese people
2. Those who have low immunity and feel discomfort and pain all over the body are prone to colds.
3. Those with constipation and has coarse, flabby skin.
4. Those whose channels and collaterals of the legs are blocked, and the proportion of the legs is poor.

Inapplicable Range

1. Those who are in menstruation, pregnancy, lactation and operation recovery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc
3. Those with skin diseases, patients with infectious diseases and skin sensitive period.
4. Those with wounds during recovery from surgery.
5. Patients with severe varicose veins and tumors.
6. Those with allergic and severely sensitive skin.
7. People who have just had liposuction.
8. Those who are overly old.
9. Those who are pregnant or recovering from surgery.

Notes after Operation

1. Keep warm after operation. Do not eat cold food.
2. 4-6 hours later in the shower.
3. Drink more warm water to replenish water and speed up metabolism.
4. Refuse to overeat or stay up late.
5. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.
6. Wear pants when you're done. Avoid miniskirts and shorts.

Body Sculpting&Slimming

Effects

1. Relieve shoulder and back soreness, and improve the lump on back of the neck.
2. Dredge channels and collaterals, and improve channels and collaterals blocking.
3. Accelerate blood circulation and dredge channels and collaterals.
4. Promote blood circulation and remove blood stasis, dredge channels and collaterals, and prevent varicose veins.
5. Regulate the functions of viscera and strengthen the body.
7. Stimulate collagen regeneration, firming and shaping.
8. Improve loose and soft waist and abdomen skin.
9. Improve the jiggly and thick arm.
10. Improve unwanted fat on the back, waist and abdomen.
11. Tighten skin and prevent sagging.
12. Improve stretch marks, fat marks, and increase skin elasticity.
13. Accelerate metabolism, improve constipation and intestinal peristalsis.

Applicable Range

1. Those with cold hands, feet, womb and body.
2. Those who are sedentary and don't look good at the waist.
3. Those with unwanted fat on waist and abdomen, prominent belly, loose skin after delivery.
4. Those with fat marks, stretch marks.
5. Those with constipation, abdominal meridian blocking.
6. Those with big arms, thick back, poor leg shape ratio and want to look better in clothes.
7. Those with jiggly and flabby arms.
8. Those with loose skin on arms and legs.
9. Those whose hands and legs are easily sore and numb.
10. Those with sore shoulders and backs and stiff necks.
11. Those with insomnia and dream, memory decline of the population.
12. Those who are prone to fatigue, drowsiness and poor circulation of qi and blood.
13. Those with thick back and unattractive clothes.
14. Those with poor circulation of lower limbs, edema and obese people.
15. Those who have low immunity and feel discomfort and pain all over the body are susceptible to colds.

Inapplicable Range

1. Those who are during pregnancy, menstruation and lactation.
2. Those with hypertension, heart disease, diabetes, thyroid, epilepsy and severe hyperthyroidism.
3. Those with malignant tumor and hemophilia or severe bleeding.
4. Those who have just had liposuction.
5. Those with severe varicose veins and tumors.
6. Those whose surgical wound is healing or recovering.
7. Those with skin diseases and infectious diseases.
8. Those with severe gynecological diseases.
9. Those with gynecological diseases being treated.
10. Those with allergic and severely sensitive skin.
11. Those with skin trauma or cut.
12. Those who are overly old.
13. Those with metal implants in the body, such as stents and pacemakers, are allergic to metal.
14. Those who are too weak.
15. Those who over-drink, full, empty, thirsty and overworked.

Notes after Operation

1. Avoid wearing clothes that show navel, shoulder or back, miniskirts or shorts, and avoid getting cold from the wind.
2. Avoid overeating, staying up late, drinking and eating raw, cold, spicy and greasy food.
3. Keep warm after operation, and do not bathe until 4-6 hours apart.
4. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.
5. Before going to bed at night, you can knead your abdomen clockwise with your hands to make the metabolic effect of weight loss better.
6. Drink plenty of hot water to hydrate and speed up metabolism.

Facial Care

Effects

1. Improve facial wrinkles, and crow's feet.
2. Deeply introduce nutrition, fade pigment, spots and whiten skin.
3. Increase skin elasticity, firm and delicate skin, and lift canthus.
4. Relieve eye fatigue, dark circles, bags and edema.
5. Increase blood circulation and metabolism.
6. Improve sagging and relieve sagging.
7. Stimulate collagen hyperplasia and delay aging.
8. Accelerate lymphatic detoxification and improve facial skin quality.

Applicable Range

1. Those with dark complexion, rough skin, large pores and dry skin.
2. Those whose skin is flabby, saggy and inelastic.
3. Those with fine lines, decree lines, canthus lines.
4. Those with wrinkles, fine lines, bags under the eyes, and dark circles under the eyes.
5. Those who face computer screens and cell phones for long hours.
1. Those who often stay up late with dark circles under their eyes.
7. Those who always be in a dry or hot environment.
- 8 Those who after giving birth to a baby has loose skin, edema or fat.
9. Those who work long hours in the office , facing ultraviolet.

Inapplicable Range

1. Those who have just undergone plastic surgery, the treatment site is implanted with

prostheses, metal materials, etc.

2. Those who has recent injection products, such as hyaluronic acid, hydro-gloss, wrinkle removal, or plastic surgery.
3. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc.
4. Those who are in the allergic period, severely sensitive skin and allergic to metal.
5. Those who are in menstrual period, pregnancy period, lactation period, operation recovery period.
6. Those with skin trauma or cut.
7. Those who are overly old.
8. Those with skin diseases and infectious diseases.
9. Those who have unrealistic expectations about results.

Notes after Operation

1. Do not wash your face with overheated water (either warm or cold) for seven days.
2. Strengthen hydrating and moisturizing, avoid insolation, and pay attention to sunscreen.
4. It is recommended to apply facial mask and eye mask at least 3 times a week.
5. Within 1-3 days after operation, it is best not to use products such as alcohol, fruit acid and scrub.
6. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.
7. Avoid spicy and greasy food, stay up late, smoke and drink, eat more fruits and vegetables, light food.
8. Avoid three high food, mainly less greasy food.
9. Apply facial essence and eye essence.

Part II

1. Detailed Operation

After checking that the instrument is connected properly, the following starting interface will appear when the power supply is turned on.

1.1 Function Selection

Start/Pause

Time Adjustment

Time: decrease

Time: increase

Energy Level Selection (9 being the max)

Energy: increase

Energy: decrease

Mode Selection

1.2 Detailed Operation: Bio

Select to go to the interface below

Interface after adjustment of energy and mode

Energy level range: 0-9; it is advised to start with level 2-5 and add up slowly.

Mode A: intermittent, slow frequency

Mode B: intermittent, relatively fast frequency

Mode C: intermittent, fast frequency

Mode D: consecutive

1.3 Detailed Operation: 12-polar Vacuum RF

Select  to go to the interface below

Interface after adjustment of energy and mode

Suction time adjustment: it is advised to start with the lowest and add up slowly.

Suction Time: decrease

Suction Time: increase

Release time adjustment: it is advised adjust subjecting to your own comfort level. Release time is the interval between suction and release. 0 is direct suction.

Release Time: decrease

Release Time: increase

1.4 Detailed Operation: 12-polar RF

Select to go to the interface below

Interface after adjustment of energy and mode

1.5 Detailed Operation: 5-polar RF

Select to go to the interface below

Interface after adjustment of energy and mode

1.6 Detailed Operation: 8-polar RF

Select  to go to the interface below

Interface after adjustment of energy and mode

1.7 Detailed Operation: 8-polar 40K cavitation

Select to go to the interface below

Interface after adjustment of energy and mode

2. Safety Precautions

Patients with the following symptoms should be cautious about using this instrument. Please consult a doctor or a professional before using the instrument. The details are as follows:

1. Those who are pregnant or lactating.
2. Those with heart disease or pacemaker equipped.
3. Those whose wounds have not healed and who are recovering from the operation.
4. Those with epilepsy, severe diabetes and hyperthyroidism.
5. Those with malignant tumor, hemophilia or severe bleeding.
6. Those with skin diseases and infectious diseases.
7. Avoid wearing metal jewelry during operation.
8. It is not allowed to be use around metal, plastic, silicon and other parts embedded in the body.

3. Dos and Dont's

1. After each use of the instrument, please clean the treatment head with water and keep it properly.
2. The plug with grounding pin must be used before the instrument is used and the power socket of the instrument is properly grounded.
3. Ensure that the voltage of the instrument is suitable. If the voltage of the local power supply is not stable, we suggest that the user add a voltage regulator with matching power between the mains and the instrument.
4. In order to ensure the treatment effect and normal service life of the instrument, please use the specified parts provided or suggested by the original manufacturer.
5. The instrument should not be placed in damp places or near water sources, and should not be directly exposed to sunlight.
6. Do not place the instrument near a strong heat source, as this may affect the life and normal use of the instrument.
7. Please remove all metal objects from your body before treatment, so as not to affect the curative effect due to unexpected conditions.
8. Do not use in the eyes, thyroid gland, parathyroid gland, testicles, pregnant woman's abdomen and atrial pulse generator.
9. Patients who are currently ill should also use this instrument with caution unless approved by a physician.
10. Please turn off the power switch of the instrument when no guest is using it, and make sure to turn off the main power of the instrument before leaving after daily use to ensure the safety of electrical products.
11. Use the instrument or train the operator strictly according to the instruction of the manual.

12. If you are taking other weight-loss drugs, it is recommended to stop taking the drugs for 1 to 2 months before you lose weight. If you want to lose weight immediately, you should extend the course of treatment
13. Do not use the instrument on an empty stomach. Only after at least 1 hour after a full meal can you carry out the weight-loss treatment.
14. During operation, the instrument should be in full contact with the skin to avoid uneven heating.
15. Start with the lowest energy at the beginning of operation, and gradually add energy after adaptation.
16. When using this instrument, the operating area must be kept moist and avoid dry skin operation.
17. After the operation, scrub the instrument with normal saline to ensure its cleanliness and extend its service life.
18. Apply products that contain high volume of oil to keep it moisturized.

4. Troubleshooting & Solutions

1. The instrument cannot be started, and the key light on the back of the instrument does not work.
 - A. Make sure the power cord is connected to A valid power socket.
 - B. Whether the fuse tube on the back of the instrument is loose or burnt out.

2. No RF output of the instrument?
 - A. Please check whether the plug connecting the instrument handle and the body is tightly connected.
 - B. Please check whether the treatment area has been cleaned. Grease or oil essential oil products may cause poor contact between the treatment handle of the instrument and human body, resulting in no rf output.

3. Weakened RF output?
 - A. Please check whether the plug connecting the instrument handle and the body is tightly connected.
 - B. Please check whether non-conductive grease and other substances are stained on the treatment handle, which will cause poor contact and weaken the output.
 - C. Please check whether the product used is the adaptive product specified by the instrument.

4. No suction or very little suction?
 - A. Please close the instrument and check the filter element specially used for the instrument, which may need to be replaced.
 - B. Please check the rubber ring of the handle plug, because the rubber ring may be worn and cause air leakage.
 - C. Please check whether the oil filter cup outside the filter is tightened and whether

the rubber ring is worn. It is possible that air leakage at this position may lead to poor air pressure.

D. If the above methods cannot be handled, please contact the instrument dealer for assistance.

5. instrument can start, but the screen there is an error message?

A. Please unplug the power plug behind the instrument and wait for about 1 minute before restarting the instrument.

B. If the above methods cannot be handled, please contact the instrument dealer for assistance.

5. FAQs

1. Q: How long can I start seeing results of RF treatment?

A: Under normal circumstances within that day or a week. Skin collagen tissue is heated and produces contractions, and you can obviously feel skin tightening. Because RF works by stimulating subcutaneous tissue and bring about sustainable collagen regeneration, so the more you do it, the more visible effects you shall receive.

2. Q: Is RF harmful to skin?

A: RF treatment falls under the category of non-surgery operation. It stimulates collagen regeneration at the skin bottom and boosts metabolism, therefore has no damage to the skin. Partial redness and fever is the normal phenomenon of accelerated blood circulation, and will be resolved by oneself after a moment, so there's no need to worry.

3.Q: How long does the body firming treatment take?

A: One operation time is 60 minutes. We will combine professional techniques and instruments to achieve remarkable results.

4.Q: What are all the functions of this instrument?

A: Dissolve fat, body shaping, smooth skin, firming, lifting, and anti-aging. It can be operated all over the body. In terms of facial care, it can contour facial outline, alleviate wrinkles and saggy skin. In terms of body care, it can reduce regional fatness and build S curve, promote the metabolism and detoxification of the whole body. Meanwhile, it can also enhance the functions of viscera and regulate the sub-health of the body.

5.Q:Which one is better in terms of weight loss, liposuction or this machine?

A: The principle of liposuction is to suck out the excess fat in one part of the body through the method of negative pressure suction, so as to achieve the purpose of rapid weight loss on parts of the body. It achieves fast results, requires anesthesia, recovery period. It falls under the category of surgery operation and comes with risks.

However, our machine is risk-free and has no side effects. While losing weight, it can stimulate collagen regeneration to lift and tighten skin. By lifting, it can also shape perfect curves and accentuate women's natural charm.

6.Q: Will I experience rebound after operation?

A: RF works by dissolving fat to reduce weight, and are not prone to rebound. Because what's dissolved through RF treatment is fat, not water. The formation of fat needs a longer period of time to accumulate, so it is not prone to rebound.

7.Q: Do I need to be on a diet?

A: Pay attention to what you eat. Because radio frequency and ultrasonic treatment end with blasting adipose and accelerated metabolism. It's best to avoid to eating spicy, oily, or fried food, to avoid affecting regular metabolism. Also proper workout and sweating help with the process, in a way weight loss will be more visible as well.

8.Q: Does it have any side effects on the body?

A: RF beauty treatment is non-invasive and so far the most safe and effective method to remove wrinkles and shape body. Generally speaking side effects won't appear. A small number of people may experience transient redness or swelling that will disappear after a few hours. Those with dry skin may experience atrophy after the initial treatment. The skin will lose moisture due to RF heat. However, the skin will become plump at the beginning of collagen regeneration and these symptoms will disappear after three days. There are no side effects on health.

9.Q: Can RF instrument be used for chest shaping?

A: As the growth of age and female physiology period, sub-health state, gravity, stimulation during lactation, a large number of nutrition loss... All the above will cause collagen loss, decreased blood flow, damaged elastic tissue, flabby ligament gland, and prolapsed breasts. Through RF energy conduction, collagen protease can be promoted to repair elastic tissue and ligament glands, thus achieving the effect of chest lifting and shaping.

10. Q: Can ultrasound be operated all over the body?

A: Ultrasonic cavitation ruptures fat cells and causes mechanical disruption of fat cell membrane. Liquefied fat cells then cleared away by metabolic pathways. Our heart is a hollow organ, and sensitive to high frequency sound waves. Back and forth reflex occur due to the fact that muscle tissue and blood in the heart do not conduct sound waves in the same way. The reflex force can detach cardiac valves from cardiac muscles. If directed at the eye, it can cause retinal detachment. In a word, avoid eye and heart area when using ultrasonic beauty device. (It is also advised not to use it on waist, back and chest.)

11.Q: Does ultrasound have side effects on human body?

A: Ultrasonic beauty machine requires no surgery, no opening up and no anesthesia,

therefore is indeed non-invasive. It relies on ultrasound (mechanical sound wave) - blast fat through cavitation - ultrasound focusing. And the results are fat smash - fat dissolving - skin firming and body sculpting respectively. It only targets at low density fat cells while leaving high density tissues like blood vessels intact, therefore having no side effects on human body. Slight tinnitus might appear to happen during the treatment, which is within normal range so there's no need to worry.

12.Q: Why does tinnitus occur?

A: It's because ultrasound comes with a high frequency vibration, which could go up to 20kHz. It also goes deep into skin fat layers, which could go down to 20mm below epidermis. Highly intensifies ultrasound cause high speed friction among fat cells, resulting in them bursting and heating up, and eventually emulsified. And during the process, ultrasound can cause microvibration to the tissue that make us feel like as "tinnitus".

13.Q: What is collagen?

A: Collagen is a kind of biological macromolecule substance, a kind of white, opaque and non-branched fibrous protein. It can supplement the nutrition needed by all layers of the skin, enhance the collagen activity in the skin, lock moisture, nourish the skin, delay aging, beautify, relieve facial relaxation, provide nutrients for the hair and so on. Collagen is a nutrient that human body must replenish to delay aging. With the growth of age, collagen will gradually be lost. At the age of 20 , women have begun to age, collagen gradually decrease. At the age of 25, collagen loss reaches its peak. At the age of 40 , the content is less than half of which one has at age 18. It is the loss of collagen and water that causes the wrinkles on the face of the elderly. The breakage of collagen fibers and elastic mesh will cause skin tissue to be oxidized, atrophied and collapsed. The skin will be dry, wrinkled, flabby and inelastic etc,. Therefore, in order to delay aging, collagen must be supplemented.

14. Q: Why do you need breast maintenance?

A: The lymph nodes of bosom rank the top among other parts of the body, which also lead to toxin accumulation very easily , and urbanite life rhythm is very fast now, working pressure is very big, which can bring about the hyperplasia of different level. The saying goes that bosom is the cradle of children, the garden of the woman, the symbol of female identity! Breast maintenance can make your figure more beautiful, add scores for your whole temperament, thus turn head rate increases 10 times certainly! Good figure and temperament will also ensure husband's loyalty!

The evolution of breast cancer: breast milk residual , secretions, toxins -- nodules and blockages -- lobular hyperplasia, ductal hyperplasia, breast hyperplasia -- duct blockage and adhesion -- fibroma, breast cyst -- breast cancer.

15.Q: Why do you need hip maintenance?

A: Because it can help the body lymphatic system discharge poison, improve the gynaecological disease, and avoid harm brought by buttock blockage. Hip impassability surely bring about gynaecological issues. What's inside buttocks is pelvic cavity, bowel. It connects daimai, lumbar vertebra, sciatic nerve from above, uterus ovary, uterine adenexa in front, anus, vagina, inguinal lymphatic from below.

If suffering from squeeze of shangjiao and xiaojiao meridian channels, hip would be most vulnerable to cold, wet and blood stasis. When hip is affected by cold, it can cause meridian contraction of hips, dysmenorrhea, irregular menstruation, dark menstruation color , clot, deterred blood flow and meridian channels. It also affects fertility.

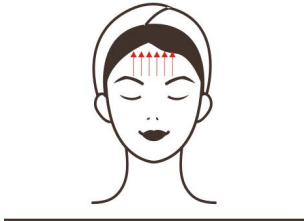

16.Q: How does negative pressure detoxify?

A: Negative pressure can congest capillary, stimulate cell to increase vitality. The suction and release of pressure during operation can make local pores continue to open and close, therefore promote skin breathing, increase the amount of skin oxygen, speed up the elimination of waste. So it achieves the effects of promoting qi and blood circulation, dispelling coldness and dampness, dredging channels and collaterals, clearing toxins, heat and so on.

6. Packing List

- 1x Bipolar RF Head
- 1X 40KHz Cavitation Head
- 1x Ten-polar RF Head
- 1X RF Head
- 1X Vacuum RF Head
- 1 x Power Supply Cord

Suggested Treatment:

10 times for a course of treatment, after a complete chest fever to promote blood circulation, see a certain improvement effect, a course of treatment the effect is more obvious, improve the nodules. Three courses of skin firming and consolidation, increase the elasticity of the chest. Regulating endocrine makes women more attractive.

Body-Shaping on Arms: 60 min, once a week

RF Energy:
3-8
Mode: A

Ultrasonic
Energy:
3-8
Mode: B

Massage
cream+gel
+device

1. Left-right order: lay the arm flatwise, apply and rub oil in from lower arm to the entire arm and slide to the fingers, 3 times.
2. Push the entire arm with both palms, 3 times.
3. Push hands upwards tracing three main collateral channels(dachangjing-sanjiaojing-xiaochangjing) to armpits with fingers spread and hukou pointing upwards, 3 times.
4. Caress the treatment area, 3 times.
5. Trace and rub three main collateral channels on arms with kneeling finger back and forth till them turn hot, 3 times.
6. Caress the treatment area, 3 times.
7. Lay inner arm upwards, and push hands tracing three yin channel on inner arm(feijing-xinbaojing-xinjing) to armpit, with hukou pointing upwards, 3 times respectively.
8. Rub three channels back and forth with kneeling fingers, 3 times.
9. Caress the treatment area and slide to fingers.
10. Repeat the previous operation on another side.
11. RF device operation: lay arms flatwise and start from fat part of lower arm,

Technique 1、2、3、4、5、6

Technique 7、8

Technique 9

Technique 12、15

Technique 13、14

Technique 16

		<p>tracing three channels to armpit, 3 times.</p> <p>12. Move the device in annular motion, tracing three channels to armpit, 3 times.</p> <p>13. You may double the operation on flabby arms, 3 times.</p> <p>14. Trace three channels to armpit, 3 times.</p> <p>15. Lay inner arm flatwise and push three channels on upper arm to armpit, 3 times.</p> <p>16. Trace three channels on upper arm and move the device in circles to armpit, 3 times.</p> <p>17. Trace three channels from upper arm to armpit.</p> <p>18. Repeat the previous operation with ultrasonic operation.</p> <p>19. Repeat the previous operation on another side.</p>	 <hr/> <p>Technique 18</p> 
--	--	--	---

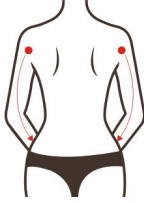

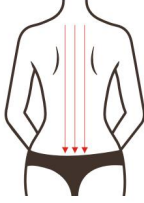

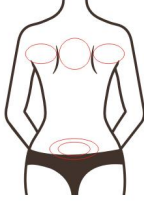

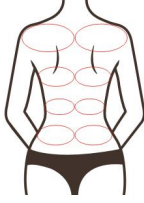

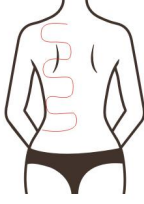

Suggested Treatment:

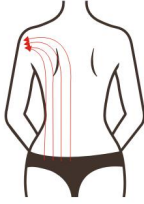

Ten times for a course of treatment. Once done, it will feel warm and tight, and the arms will be relaxed. A course of treatment down arm excess fat began to reduce, the skin began to close to full, two courses of treatment began to model, strengthen the effect, dredging meridian, enhance the physique. Three courses consolidate stability and prevent rebound.

Body-Shaping on Back: 60 min, once a week

RF Energy: 3-8	Essential oil+gel+dev	1. Apply oil on back and press Fengchi and fengfu	Technique 1、 10

Repeat the previous operation on another side.</p>	
--	--	--	--

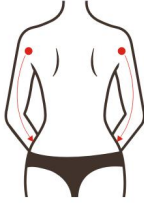

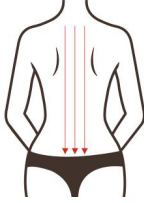

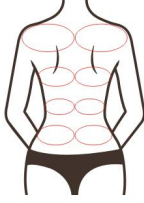

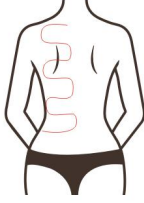

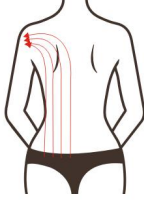

Suggested Treatment:

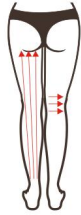

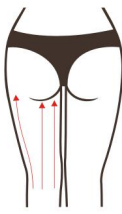

10 times for a course of treatment, after a course of treatment leg is relaxed, circulation is accelerated, a course of treatment leg becomes thin, skin collagen tissue because of heat and produce tightening effect, can obviously feel skin tight feeling, two course of treatment leg is fine tight effect obvious, three course of treatment consolidate effect. Super radiofrequency + super ultrasound is to stimulate the dermis of the skin, which can sustain collagen regeneration, so the treatment effect will be more and more obvious.

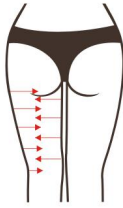

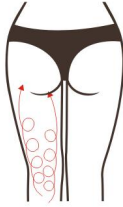

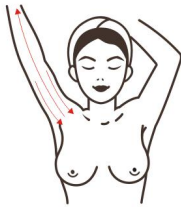

Body-Shaping&Slimming: 180 min, once a week

Suggested Treatment:

Ten times is one treatment course. After one treatment, the skin will be firm, tender, delicate and smooth, and the eyes will be elevated to accelerate the blood circulation and lymph circulation of the eyes. After one session, it lightens fine lines, dark circles under the eyes and brightens the skin. After two treatments, the overall skin is smooth, firm and elastic, and the double chin is improved. Prevent and delay skin aging, relaxation and sagging after three treatment courses, and restore skin to its youthful state.
