

User Manual

YH-5302

Preface

To our valued users,

Thanks for choosing our latest 5-in-1 integrated beauty equipment. This latest body slimming and skin tightening instrument integrates multipolar RF, vacuum RF, and 40K ultrasonic cavitation. YH-5302 is professional beauty equipment, which needs to be operated by people with professional training. Any improper use of this equipment may bring adverse consequences to the body. Thus, we advise all people to read this manual thoroughly and strictly follow the instructions specified before operation.

We believe our quality product will give you a good return and our perfect after-sales service will make you worry-free.

Thank you.

Part I

1. Introduction

At present, multipolar RF, vacuum RF, and 40K ultrasonic cavitation are the most popular equipment for looks improving, tightening, body shaping, and anti-aging. It can effectively replace all the facial and body care programs in a beauty salon. Moreover, it can be operated easily, conveniently, and swiftly and solves skin and body problems for people pursuing beauty. Moreover, this equipment works safely and effectively and requires no skin breaking, no injection, no medication, and no surgery. It has no side effects and is operated externally throughout, and has an instant effect. RF heats deep skin, stimulates collagen hyperplasia and restructuring in the dermis, and accelerates blood circulation in the underlying skin, thus achieving skin tightening, plumpness, anti-aging, and senility prevention. Ultrasound of particular frequency aims at body parts having difficulty in fat reduction in daily life, bringing fantastic effect.

2. Advantages

- (1) The 5-in-1 multifunctional beauty equipment fixes facial and whole body care problems.
- (2) Ultrasound strongly blasts and removes fat and has replaced and surpassed liposuction, bringing good news to obese people.
- (3) It has multiple handpieces, which can be changed per the body parts to be treated and different requirements.
- (4) One handpiece has multiple functions, a stronger radiofrequency and a higher and more even energy level.
- (5) The perfect match of ultrasound and RF are going to address people's concerns for weight reduction. It can tighten skin, increase skin elasticity, speed up body metabolism, and strengthen the physique while reducing weight.
- (6) It adopts the most advanced ultrasonic cavitation technique in the world.
- (7) It's painless, non-invasive, and injury-free during treatment. And it asks for no convalescence, requires no stay, and will not affect regular work and life after treatment.
- (8) It has no consumption, with low cost, but with a quick return.
- (9) It has a broader treatment range, including both body and face.
- (10) Unevenness, bleeding, and swelling will not occur.

3. Working Principle

Face RF: Radiofrequency waves directly penetrate the skin, then produce energy by utilizing the electrical resistance effect formed by the skin, increasing the underlying

skin's temperature. Rapidly heating and stimulating collagen hyperplasia can timely lift and firm skin and continuously regenerate collagen.

Eye RF: During the treatment of eyes, RF heats the bottom layer of the eye skin rapidly through the radiofrequency waves and stimulates skin collagen growth to achieve skin tightening around the eyes, eye bags and black eyes removing, and red blood streak and fine lines relieving.

Body RF: Radiofrequency waves directly penetrate the skin, then produce energy by utilizing the electrical resistance effect formed by the skin, increasing the underlying skin's temperature, rapidly and continuously heating tissues, and promoting collagen growth. Thus, achieving skin tightening, lifting, and refining.

40K: It utilizes ultrasound. 40K can effectively consume heat and cellular water and shrink fat cells by gathered strong sound waves entering the human body, causing fat cells to produce a strong strike and frictions between fat cells. In addition, when sound waves vibrate, they can produce strong strikes among cells, making cells burst instantly and lessen fat cells to remove fat.

Ultrasonic Cavitation: Tens of thousands of tiny bubbles, namely cavitation bubbles, are produced by liquid vibration. These bubbles grow in the negative pressure zone formed by the longitudinal transmission of ultrasound, and they close rapidly in the positive pressure zone. Therefore, they are being compressed and stretched under alternate positive and negative pressure. The bubbles will be compressed until they get burst, which will generate strong instantaneous pressure. Generally, the pressure can reach up from tens of MPa to hundreds of MPa and produces strong vibration and noise.

Advantages: It destroys tissue selectively, only breaks low-density adipose tissue with a specific frequency, and protects high-density tissue like nervus vascularis.

Vacuum RF: To massage skin and muscle with a specialized vacuum sucking head can effectively enhance the mobility of the body fluids and boost the movement of cells to activate cells and improve skin elasticity. And meanwhile, it accelerates blood circulation of the micro-vessels, discharges the excess toxin through the normal circulation of the lymphatic system, lowers the probability of adverse situations, such as color spots, pigment, and extravasated blood. The kneading effect generated by vacuum fat-sucking can increase the tissue activity of skin and muscles, thus decreasing scleroid cellular tissue and increasing the elasticity of skin tissue. Therefore,

both slimming and shaping can be completed simultaneously. In addition, vacuum movement can also stimulate the sympathetic nervous system on the superficial and deep layer of the skin and lowers skin sensitivity. The suction and release of air pressure can improve the capillary system, promote flow between deeper veins and lymph gland networks, strengthen blood vessels, and relieve varicosity.

Advantages: It breaks through the previous working mode of vacuum that is single and simple. Using different modes for different body parts can slim and sculpt the body more effectively and efficiently, and it causes no harm to the human body. Compared with the ordinary monopole RF, this equipment, with its unique RF probe and RF and vacuum relatively independent but complementary as a whole metabolic system, can perfectly reshape the body in a more effective, rapid, and even way.

Physical Effect for Vacuum

Skin Layer

The suction and release of air pressure:

Improve mobility among cells, thus increasing the movement of cells and curing diseases related to blood stasis and stagnation.

Remove excess moisture from the lymph gland and veins.

Effect: Water can be discharged from fibrous tissues.

Vascular Layer

The suction and release of air pressure:

Boost blood circulation of the micro-vessels. It improves the capillary system and enhances flow between deeper veins and the lymph gland network.

The extra toxins can be removed from the body.

Effect: Strengthen blood vessels and relieve varicosity.

Fibrous Layer

The suction and release of air pressure:

Promote the combination of two effects generated in different tissues (including skin, muscle tissue, etc.).

Repair cell tissue and enhance activity among cells.

Boost and repair skin elasticity, and resist skin stretch.

The production of ossein helps to renew skin and recover elasticity.

Enhance oxygen support capacity for the skin and increase the consumption of carbon dioxide.

Effect: Break the stiff fiber of cellulite, and make it more elastic, thus shaping the body.

Nervous Layer

The suction and release of air pressure:

Stimulates the surface and deep layer of the sympathetic nervous system.

Lower skin sensitivity.

Repair skin elasticity and resist the fibrosis of tissue.

Effect: Repair and reduce skin sensitivity.

4. Facial Anti-aging

(1)Efficacy

- 1) Tighten face and deeply infuse nutrition.
- 2) Increase skin elasticity and refine skin.
- 3) Moisten skin and enhance skin absorptivity.
- 4) Accelerate blood circulation and metabolism.
- 5) Relieve the double chin and firm skin.
- 6) Stimulate collagen hyperplasia and delay aging.

(2)Indications

- 1) Those with dark or lustreless faces.
- 2) Those with flabby or saggy skin.
- 3) Those with fine lines, nasolabial folds, or periorbital wrinkles.
- 4) Those with vague facial contour.
- 5) Those with coarse skin or large pores.
- 6) Those who are under long-term exposure to UV radiation in the workplace.
- 7) Those with flabby skin, edema, or puffiness after child delivery.

(3)Contraindications

- 1) Those who just had plastic surgery or had prostheses or metal objects implanted inside the treated parts.
- 2) Those who recently injected hyaluronic acid or water light, or had an injection for wrinkle removal or plastic surgery.
- 3) Those with hypertension, heart disease, diabetes, severe thyroid, malignant tumors, etc.
- 4) Those in the allergic period, with severely sensitive skin, or who are allergic to metals.
- 5) Those with skin trauma or wound.
- 6) Those who are overaging.
- 7) Those in menstruation, pregnancy, lactation, or surgical recovery.
- 8) Those with skin disease or infectious disease.
- 9) Those who have an unrealistic illusion about the effect.

(4)Matters Needing Attention After Treatment

- 1) Do not wash the face with overheated water within three days (but wash with

warm and cold water).

- 2) Keep hydrating and moisturizing, and protect yourself from the sun.
- 3) Do not enjoy hot springs, saunas, or do strenuous exercise, etc., within three days.
- 4) It's advised to apply a facial mask at least three times a week.
- 5) Avoid eating spicy and greasy food, staying up late, smoking, and drinking alcohol. Instead, eat more vegetables, fruits, and light food.
- 6) Do not eat food causing hypertension, hyperlipidemia, and hyperglycemia, and mostly eat bland food.

5. Eye Anti-wrinkle

(1)Efficacy

- 1) Relieve eye fatigue, black eyes, eye bags, and edema.
- 2) Improve periorbital wrinkles and crow's feet.
- 3) Fade pigment and accelerate blood circulation.
- 4) Accelerate metabolism and prevent hyperpigmentation.
- 5) Supply nutrition to the eyes and moisten the skin.
- 6) Tighten and refine skin and lift the corner of the eyes.
- 7) Accelerate blood circulation of the eyes and help with efficient absorption.

(2)Indications

- 1) Those with wrinkles, fine lines, eye bags, or black eyes.
- 2) Those with dry skin, dry lines, or dynamic wrinkles.
- 3) Those whose eyes are prone to fatigue or dryness.
- 4) Those who always face computer or cellphone.
- 5) Those who always stay up late or with black eyes.
- 6) Those who always expose to a dry or high-temperature environment.

(3)Contraindications

- 1) Those who just had plastic surgery.
- 2) Those with hypertension, heart disease, diabetes, severe thyroid, malignant tumors, etc.
- 3) Those in the allergic period, with severely sensitive skin, or who are allergic to metals.
- 4) Those with skin trauma or wound.
- 5) Those who are overaging.
- 6) Those in pregnancy or surgical recovery.
- 7) Those with skin disease or infectious disease.

(4)Matters Needing Attention After Treatment

- 1) Avoid being under the blazing sun and protect yourself from the sun.
- 2) Keep hydrating and moisturizing, and protect yourself from the sun since the treated parts are relatively dry.
- 3) It's better not to use products like alcohol, AHA(Alpha Hydroxyl Acid), or scrub cream within 1 to 3 days.
- 4) Avoid washing the face with overheated water, enjoying hot springs, saunas, or doing strenuous exercise within seven days.
- 5) Drink more water and apply an eye mask which should do at least three times a week.

6. Neck Maintenance

(1)Efficacy

- 1) Relieve neck with slack, coarse, or lusterless skin.
- 2) Tighten skin and increase skin elasticity.
- 3) Relieve double chin.
- 4) Accelerate lymphatic detox and improve facial skin quality.
- 5) Prevent neck and lymphatic diseases.

(2)Indications

- 1) Those whose necks have coarse skin or dark skin color.
- 2) Those whose necks have clogged lymph.
- 3) Those whose necks have slack or inelastic skin.
- 4) Those who always lower their heads.
- 5) Those who are not satisfied with their necks' skin color.

(3)Contraindications

- 1) Those who just had plastic surgery.
- 2) Those with hypertension, heart disease, diabetes, severe thyroid, malignant tumors, etc.
- 3) Those in the allergic period or with severely sensitive skin.
- 4) Those with skin trauma or wound.
- 5) Those who are overaging.
- 6) Those in pregnancy or surgical recovery.
- 7) Those with skin disease or infectious disease.

(4)Matters Needing Attention After Treatment

- 1) Protect yourself from the sun and keep the neck warm.

- 2) Keep hydrating and moisturizing, and protect yourself from the sun since the treated parts are relatively dry.
- 3) It's better not to use products like alcohol, AHA(Alpha Hydroxyl Acid), or scrub cream within 1 to 3 days.
- 4) Avoid washing the face with overheated water, enjoying hot springs, saunas, doing strenuous exercise, etc., within seven days.
- 5) Drink more water, apply neck masks at least three times a week, and apply essence or neck cream.
- 6) Avoid lowering your head for a long time.

7. Body Management

(1)Waist & Abdomen Sculpting

1) Efficacy

Relieve women's cold hands, feet, cold uterus, or cold-natured body.

Relieve waist and abdomen's flabby and soft skin.

Remove flab from waist and abdomen, and relieve swim ring-like belly and small belly.

Tighten the skin, reduce stretch marks and striae distensae, and increase skin elasticity.

Accelerate metabolism, alleviate constipation, and improve intestinal tract movement.

2) Indications

Those with cold hands, feet, cold uterus, or cold-natured bodies.

Those whose waist and abdomen have flab, protruding small belly, or flabby skin after child delivery.

Those who sit too long or with unsightly waistlines.

Those with striae distensae or stretch marks.

Those with constipation or whose abdomens have obstructed channels and collaterals.

3) Contraindications

Those with hypertension, hyperglycemia, hyperlipidemia, or heart disease.

Women in pregnancy, menstruation, or lactation.

Those whose surgical wounds are healing or in surgical recovery.

Those with epilepsy, severe diabetes, or hyperthyroidism.

Those with malignant tumors, hemophilia, or severe bleeding.

Those with skin disease or infectious disease.

Those with severe gynecological diseases.

Those whose gynecological diseases are in treatment.

4) Matters Needing Attention After Treatment

Avoid wearing a crop top or exposing to a windy environment and catching a cold.

Avoid eating and drinking too much, staying up late, drinking alcohol, or eating raw, cold, spicy, or greasy food. Instead, drink more hot water.

Keep the abdomen warm and take a shower after 4 to 6 hours.

Avoid enjoying sauna, hot springs, or doing strenuous exercise within seven days.

Rub the abdomen with your hands doing it clockwise before sleep at night, making weight loss and metabolism achieve a better effect.

(2) Arm Sculpting

1) Efficacy

Stimulate collagen hyperplasia in the underlying skin, shape body, and firm skin.

Improve flabby skin.

Reduce the appearance of flabby and thick arms.

Relieve soft skin.

Tighten skin.

Accelerate blood circulation and dredge channels and collaterals.

2) Indications

Those with thick arms or who look unsightly in clothes.

Those with bat wings or flabby arms.

Those whose arms have flabby skin.

Those whose arms are prone to soreness and numbness.

Those who always carry the baby.

3) Contraindications

Those who just had plastic surgery.

Those with hypertension, heart disease, diabetes, severe thyroid, malignant tumors, etc.

Those in the allergic period or with severely sensitive skin.

Those with skin trauma or wound.

Those who are overaging.

Those in pregnancy or surgical recovery.

Those with skin disease or infectious disease.

4) Matters Needing Attention After Treatment

Keep warm, don't eat cold food, and avoid exposing to a windy environment and catching a cold.

Take a shower after 4 to 6 hours.

Drink more warm water to replenish moisture.

Refuse to eat and drink too much and stay up late.

Avoid enjoying sauna, hot springs, or doing strenuous exercise within seven days.

(3) Back Sculpting

1) Efficacy

Alleviate shoulder and back soreness and relieve Dowager's Hump.

Dredge channels and collaterals and relieve clogged channels and collaterals.

Accelerate blood circulation and metabolism.

Improve head blood supply and sleep.

Regulate viscera functions and strengthen the physique.

Tighten skin and prevent slack and soft skin.

Remove excessive flab from the back and sculpt the back.

2) Indications

Those with shoulder and back soreness or stiff neck.

Those with insomnia, dreaminess, or a fading memory.

Those who are prone to fatigue, drowsiness, or with the obstructed circulation of vital energy and blood.

Those with thick backs or who look unsightly in clothes.

Those with Dowager's Hump.

3) Contraindications

Those with metal implants inside the body (such as a stent, pacemaker, etc.) or allergic to metals.

Women in pregnancy, menstruation, or lactation.

Those whose surgical wounds are healing or in surgical recovery.

Those with hypertension, hyperglycemia, hyperlipidemia, heart disease, epilepsy, severe diabetes, or hyperthyroidism.

Those with malignant tumors, hemophilia, or severe bleeding.

Those with skin disease or infectious disease.

Those who have a weak body.

Those who are drunk, thirsty, overworked, or with a full or empty stomach.

4) Matters Needing Attention After Treatment

Keep warm, avoid exposure to a windy environment, catch a cold, and drink more hot water.

Take a shower after 4 to 6 hours.

Avoid staying up late, drinking alcohol, and eating and drinking too much.

Avoid eating raw, cold, and spicy food. But have enough sleep.

Avoid wearing shoulder-baring and backless clothes.

(4) Buttocks Sculpting

Buttocks, located at the middle of the human body, are the key hub for channels and collaterals and qi-blood circulation and are the main switch of six channels and collaterals and the bridge connecting upper jiao qi-blood and lower jiao qi-blood circulation of the human body. It plays a vital role in body S-curve management and feminine charm increasing.

1) Efficacy

Enhance blood circulation and speed up metabolism.

Relieve gynecological diseases, such as menstrual pain, irregular menstruation, and abnormal leucorrhea.

Improve sleep quality and female sexual function.

Activate ovary function, stimulate glandular secretion, and increase intimacy between couples.

Make complexion ruddy, fade color spots, and bring back youth.

Shape hips, relieve the sagging and outward expansion of the hips, tighten skin, and increase elasticity.

2) Indications

Those whose hips are slack, saggy, or have accumulated fat.

Those with striae distensae or stretch marks.

Those whose buttock shape is not good-looking flat, loose, or with outward expansion.

Those with cold hips or with low hip temperature.

Those with a cold uterus, dysmenorrhea, irregular menstruation, gynecological inflammation, etc.

Those with decreased estrogen levels or disharmonious sexual life.

3) Contraindications

Those in menstruation, pregnancy, lactation, or surgical recovery.

Those with hypertension, heart disease, diabetes, severe thyroid, malignant tumors, etc.

Those with skin disease, infectious disease, or whose skin is in a sensitive period.

Those with surgical wounds or in surgical recovery.

Those in the allergic period or with severely sensitive skin.

Those who just had liposuction.

Those who are overaging.

4) Matters Needing Attention After Treatment

Keep the buttocks warm, and avoid wearing miniskirts or mini-shorts.

Take a shower after 4 to 6 hours.

Drink more warm water and avoid exposing to a windy environment and catching a cold.

Avoid staying up late, drinking alcohol, and eating and drinking too much.

Avoid eating raw, cold, and spicy food. But have enough sleep.

Avoid enjoying sauna, hot springs, or doing strenuous exercise within seven days.

(5) Leg Sculpting

1) Efficacy

Tighten skin and prevent slack and soft skin.

Stimulate collagen production, and flatten striae distensae.

Increase legs' blood circulation, detox, and metabolism.

Activate blood and remove stasis, dredge channels and collaterals, and prevent varicosity.

Tighten the excessive flab of the legs and get rid of the thick thigh.

2) Indications

Those with the obstructed blood circulation of the lower limbs, edema, or obesity,
Those with hyp immunity, feel uncomfortable and pain all over the body, or are prone to catch colds.

Those with constipation or with coarse and slack skin.

Those whose legs have clogged channels and collaterals or with disproportionate and unsightly legs.

3) Contraindications

Women in menstruation, pregnancy, or lactation.

Those with hypertension, heart disease, diabetes, severe thyroid, malignant tumors, etc.

Those with skin disease, infectious disease, or whose skin is in a sensitive period.

Those with surgical wounds or in surgical recovery.

Those with severe varicosity or tumors.

Those in the allergic period or with severely sensitive skin.

Those who just had liposuction.

Those who are overaging.

Those in pregnancy or surgical recovery.

4) Matters Needing Attention After Treatment

Keep warm, don't eat cold food, and avoid exposing to a windy environment and catching a cold.

Take a shower after 4 to 6 hours.

Drink more warm water to replenish moisture and speed up metabolism.

Refuse to eat and drink too much and stay up late.

Avoid enjoying sauna, hot springs, or doing strenuous exercise within seven days.

Wear long pants as far as possible after treatment and avoid wearing miniskirts and mini-shorts.

Part II

1. Detailed Operations

Connect the connecting wire of the handpiece to the main machine.

Insert the power cord to the jack of the main machine and have the power connected.

Press this button to start the equipment.

After finishing loading, it enters the following page.

Time Setting & Display (Time Range: 00: 00 to 60: 60)

Time Setting (decrease)

Time Setting (increase)

Energy Intensity Display & Setting (Energy Intensity Range: 1 to 9)

Energy Level Setting (decrease)

Energy Level Setting (increase)

Mode Switching

Start/ Pause

1.1 Detailed Operations for 40K

Select  and enter the page of 40K.

Time Setting

Energy Intensity Setting. (When operating, you may experience drumming in the ears. The higher the energy intensity, the more obvious the drumming in the ears. The energy intensity should be set between 0 and 7. Please adjust it per individual tolerance.)

Mode Switching

Mode A: continuous output(suit those who want to reduce weight in the early stage)
Mode B: discontinuous output(suits those who want to reinforce the effect in the later stage)

When operating 40K, the body parts to be treated should be evenly applied to the gel. Set the time and energy intensity, select the default mode(Mode A), and

press  to start.

1.2 Detailed Operations for Vacuum RF

Select  and enter the page of Vacuum RF.

Time Setting

Energy Intensity Setting (the advised energy intensity: between 1 and 7)

Suction Time Setting (the left is for time decreasing and the right is for time increasing)

Release Time Setting (the left is for time decreasing and the right is for time increasing)

Mode Switching

Mode A: After clicking the start button, it reaches the setting value directly.

Mode B: After clicking the start button, it reaches the setting value slowly when touching the skin.

Rotating knob for suction setting. To rotate to the left to decrease suction and to the right to increase.

The time for suction should be longer than that of release. It's the suction-release mode when the time for suction and release is not zero. It's the direct suction mode when the suction time is set to any values between the range.

When operating vacuum RF, the body parts to be treated should be evenly applied to essential oil. Set the time, energy intensity, and time for suction and release, select

the default mode (Mode A), and press  to start.

1.3 Detailed Operations for Sextupole RF

Select  and enter the page of Sextupole RF.

Time Setting

Energy Intensity Setting(the advised energy intensity: between 1 and 7)

Mode Switching

Mode A: After clicking the start button, it reaches the setting value directly.

Mode B: After clicking the start button, it reaches the setting value slowly when touching the skin.

When operating Sextupole RF, the body parts to be treated should be evenly applied to RF cream. Set the time and energy intensity, select the default mode(Mode A), and

press  to start.

1.4 Detailed Operations for Quadrupole RF

Select  and enter the page of Quadrupole RF.

Time Setting

Energy Intensity Setting(the advised energy intensity: between 1 and 7)

Mode Switching

Mode A: After clicking the start button, it reaches the setting value directly.

Mode B: After clicking the start button, it reaches the setting value slowly when touching the skin.

When operating Quadrupole RF, the body parts to be treated should be evenly applied to massage cream. Set the time and energy intensity, select the default mode(Mode

A), and press  to start.

1.5 Detailed Operations for Bipolar RF

Select  and enter the page of Bipolar RF.

Time Setting

Energy Intensity Setting(the advised energy intensity: between 1 and 7)

Mode Switching

Mode A: After clicking the start button, it reaches the setting value directly.

Mode B: After clicking the start button, it reaches the setting value slowly when touching the skin.

When operating Quadrupole RF, the body parts to be treated should be evenly applied to massage cream. Set the time and energy intensity, select the default mode(Mode

A), and press  to start.

2. Technical Parameter

Unoisetion 40K Cavitation Head

Frequency: 40kHz

Power: 15W

Sextupolar 3D RF for Body

Frequency:1MHz

Power: 50W

Quadrupole RF with Vacuum

Frequency: 1MHz

Power: 50W

Vacuum: <-80kPa

Pressure: >250kPa
Air Flow: >10L/minute
Noise Level: <70dB (30cm away)

Quadrupole 3D RF for Body:
Frequency:1MHz
Power: 30W

3D Bipolar RF
Frequency:1MHz
Power: 10W

Net Weight: 6.5 kg
Gross Weight: 7.5 kg
Dimensions: 455 x 430 x 250 (mm)
Power Supply Input: 100V-240V
Power: 190W

3. Contraindications

Those with the following situations should use the equipment with caution. Please consult a doctor or professional before using it. The details are as follow:

- (1) Women in pregnancy or lactation.
- (2) Those with hypertension, hyperglycemia, hyperlipidemia, diabetes, heart disease, or heart pacemakers.
- (3) Those with unhealed surgical wounds or in surgical recovery.
- (4) Those with epilepsy, severe diabetes, or hyperthyroidism.
- (5) Those with malignant tumors, hemophilia, or severe bleeding.
- (6) Those with skin disease or infectious disease should use it with caution.
- (7) Those who had plastic surgery or cosmetic injection in the past three months.

4. Precautions on Use

- (1) A plug with a ground pin must be used, and a power socket that is already grounded must be ensured before using the equipment.
- (2) Make sure the voltage of the equipment is adaptive. If the local power supply voltage is not stable, we suggest users add a voltage regulator with matching power between the mains supply and the equipment.
- (3) To guarantee the equipment's curative effect and normal service life, please uniformly use specified parts provided or suggested by the original manufacturer.
- (4) The equipment can't be placed in damp places or near water, and it also can not be exposed to direct sunlight.
- (5) Please don't place the equipment near an intense heat source since this may affect its service life and everyday use.

- (6) Please remove all the metal objects from the body before use to avoid unexpected situations which may affect the curative effect.
- (7) Please refrain from using the equipment aiming at the eyes, thyroid, parathyroid, testicles, pregnant woman's abdomen, pacemaker, etc.
- (8) Those suffering from an illness should use it with caution unless they get permission from a doctor.
- (9) Please turn the equipment's power switch off if no one uses it, and ensure the main power is off after everything was settled. Thus the safety of the equipment can be guaranteed.
- (10) It's advised to stop taking other weight-loss medicines for 1 to 2 months before treatment if you are taking them now. The course of treatment shall be extended if you want to have it started immediately.
- (11) Don't use the equipment with an empty stomach, and wait for at least 1 hour after a full meal before starting the course for weight reduction.
- (12) The equipment should contact the skin thoroughly to avoid uneven energy that triggers discomfort when in use.
- (13) Start from the lowest energy level when start and increase the level gradually after the client got used to it.
- (14) The device should contact the skin fully when in use. Otherwise, it may not be attached to the skin.
- (15) Don't set the suction of vacuum RF too high when treating the face to avoid the appearance of redness.
- (16) Product with high oil content must be applied, and the treated parts must be kept moist.
- (17) After the operation, clean the equipment with normal saline to ensure its cleanliness and hygiene and extend its service life.
- (18) Use the equipment and train the operators in strict accordance with the instructions specified in the manual.

5. Troubleshooting & Solutions

- (1) The equipment can't be started, and the buttons in its back are not lighting up?
 - A. Make sure the power cord is plugged into a suitable power socket.
 - B. Check whether the fuse in its back is loose or burnt out.
- (2) The equipment doesn't have RF output?
 - A. Please check whether the handpiece and the plug connecting to the equipment body are closely linked.
 - B. Please check whether the treated parts have been cleaned. Grease or essential oil products may cause poor contact between the handpiece and the body resulting in no output.
- (3) The RF output is weakened?
 - A. Please check whether the handpiece and the plug connecting to the equipment

body are closely linked.

- B. Please check whether there is non-conductive grease on the handpiece, which may cause poor contact weakened output.
- C. Please check whether the products used are the adaptive products specified by the equipment.

(4) The equipment doesn't have suction or with small suction?

- A. Check whether the filter is inserted tightly. If not, it may cause no suction or slight suction.
- B. Check whether the jack of the vacuum hose on the two sides of the equipment is closely connected to the machine body or vacuum RF.
- C. If the solutions mentioned above are not working, please contact the equipment dealer for assistance.

(5) The equipment can be started, but there is an error message on the monitor?

- A. Take out the plug in its back, wait for about 1 minute, re-plug it, and restart the equipment.
- B. If the solutions mentioned above are not working, please contact the equipment dealer for assistance.

6. FAQs

(1) Q: RF How long does it take to see the effect?

A: Usually, the effect can be seen on the same day or within a week after treatment. The collagen tissue of the skin, under heating, produces contraction, which results in an obvious skin tightening. RF produces collagen continuously because it stimulates subcutaneous tissue. Therefore, the more you use it, the better the effect.

(2) Q: Is RF harmful to the skin?

A: Ultrasound for tightening and anti-wrinkle is a non-surgical program. It stimulates collagen regeneration in the underlying skin and accelerates metabolism. Therefore, it causes no harm to the skin. Only local redness and heating will occur after treatment, an everyday phenomenon caused by accelerated blood circulation and will disappear after a moment. Thus, there's no need to worry.

(3) Q: How long does the body firming and shaping treatment take?

A: The time for one treatment is 60 minutes. To have a noticeable effect, we will combine the use of professional techniques and instruments.

(4) Q: What functions does this equipment include?

A: It can shape the body with fat- Reducing easing, rejuvenate skin and make it smooth, do tightening and lifting, restore youth, and do anti-aging. And it can be operated all over the body. For the face, it can sculpt contour, reduce wrinkles, and alleviate loosening and sagging. For the body, it can reduce the weight of local body

parts, build an S curve, and accelerate the whole body's metabolism and detox. Meanwhile, it can also enhance viscera functions and relieve the sub-health condition of the body.

(5) Q: Which one is better in terms of weight reduction, liposuction or this equipment?

A: The principle of liposuction is to suck out excess fat from a specific body part through vacuum suction, thus achieving rapid local body slimming. It has an instant effect, requires anesthesia during the operation, and has a recovery period. There is a risk since it's an operation. However, this equipment is risk-free and has no side effects. It can stimulate collagen production to lift and tighten skin while reducing weight. It can also sculpt perfect curves by lifting and boost feminine charm.

(6) Q: Will I experience a rebound after the treatment?

A: For weight loss with Ultrasound lipolysis, the weight will not rebound quickly after reduction. Ultrasound lipolysis removes fat instead of moisture, and it takes a long time for the fat to be accumulated. Thus the weight will not get rebound quickly.

(7) Q: Do I need to be on a diet?

A: You need to keep on a diet to some extent because vacuum, radiofrequency and ultrasonic treatment is followed by fat-blasting and accelerated metabolism. Avoid eating spicy, oily, or fried food so as not to affect metabolism. Have a proper amount of exercise to sweat and discharge the sweat from the body to have a more evident effect. In this way, the effect of weight loss will be more obvious.

(8) Q: Does it have any side effects on the body?

A: Improving the appearance and shaping the body with the vacuum is a non-invasive treatment and is currently the safest and most effective way to remove wrinkles, tighten skin, and sculpt the body. Generally speaking, there are no side effects. A few people may experience transient redness or swelling that will disappear after a few hours. Those with dry skin may experience dryness and atrophy after initial treatment. The skin will lose moisture due to RF- heat. However, the skin will turn plump at the initial stage of collagen regeneration, and all those symptoms will disappear after three days. Thus, there are no side effects on the body.

(9) Q: Can ultrasound be operated all over the body?

A: Ultrasound breaks fat cells, bursts the cell wall, then fat in the cells flows out and absorbed and metabolized by lymph. Ultrasound has strong power. The heart is sensitive to sound waves since it's a hollow organ. The back and forth reflex occurs because muscle tissue and blood in the heart do not conduct sound waves in the same way after the sound wave vibrates the heart. The reflex force can detach cardiac valves from cardiac muscles. If it's directed at the eyes, it can cause retinal detachment. Therefore, to shun eyes and heart when using ultrasound. (Don't use it on the waist, back and chest.)

(10) Q: Does ultrasound have side effects on the body?

A: Ultrasound is non-surgical, non-invasive, and requires no anesthesia and operation. The techniques for ultrasound: ultrasound (mechanical sound wave)-blast fat through cavitation-ultrasound focusing. Effect: fat smashing--fat-dissolving--skin firming and body sculpting. It only targets fat cells of low density while protecting tissue of high density, such as blood vessels and nerves. Therefore, it has no side effects on the body. Slight drumming in the ears may appear during the treatment, which is normal; you don't have to worry about it.

(11) Q: Why does drumming in the ears occur?

A: It's because the ultrasonic wave has a strong vibration and a frequency above 20kHz. It acts on the subcutaneous fat layer that is 20mm below through ultrasound focusing. Ultrasonic wave with concentrated energy causes high-speed friction among fat cells, resulting in heating and eventually breaking and emulsifying, during which there is sound. Therefore, slight tinnitus will accompany during the treatment.

(12) Q: What is collagen?

A: Collagen is a biological macromolecule substance and is a white, opaque, and non-branched fibrous protein. It can supplement the needed nutrition to skin layers and enhance the activity of skin collagen. And it can lock moisture, nourish skin, delay aging, improve looks, alleviate slack face, and care for hair. Collagen is a nutrient that the body must be supplemented with to delay aging. With increasing age, the collagen will drain gradually. Women have started to aging, and their collagen has depleted, and the content of collagen has decreased little by little after the age of 20. At the age of 25, collagen loss reaches its peak. At the age of 40, collagen content is less than half of that of 18. Collagen and water loss leads to the breakage of collagen fibers and elastic mesh that support the skin, which is the exact cause of the wrinkles on the face of the elderly. It causes the oxidation, atrophy, and collapse of skin tissues, making the skin dry, wrinkled, slack, and inelastic. Therefore, collagen must be supplemented to delay aging.

(13) Q: Why do I need buttocks maintenance?

A: Hip maintenance can help with lymphatic detox, improve gynecological diseases, and avoid harm caused by buttocks blockage. Hips' impassability will surely bring about gynecological diseases. There is a pelvic cavity and intestinal tract inside the buttocks. It connects to the belt vessel, lumbar vertebra, and sciatic nerve from above, uterus, ovary, and adnexa in front, anus, vagina, groin, and lymph from below. Under the squeeze of upper-jiao(the parts above the diaphragm) and lower-jiao(the parts underneath enterocoelia) channels and collaterals, the hips are most prone to coldness, dampness, and blood stasis. When the hip is under cold, it causes contraction of the hips' channels and collaterals, dysmenorrhea, irregular menstruation, dark menstruation blood, blood clot, and obstructed blood flow. It also affects ingravidation.

(14) Q: How to detox with the vacuum?

A: Vacuum can congest capillaries and stimulate cells to increase their vitality. During operation, the suction and release of air pressure and the increase and decrease of vacuum can make local pores open and close continuously, promote skin breathing, increase skin oxygen uptake, and speed up the elimination of wastes. Therefore, it can promote qi and blood circulation, dispel coldness and dampness, dredge channels and collaterals, and expel toxins and heat.

7. Packing List

Main Machine x1
 Bipolar RF Handpiece x1
 Quadropole RF Handpiece x1
 Sextupole RF Handpiece x1
 Vacuum RF Handpiece x1

Clean the face, 2 minutes.</p> <p>23. Apply toner, essence, facial cream, and sunscreen.</p> <p>24. Treatment is done.</p>	
--	--	---	--

The Recommended Course of Treatment:

A course of treatment includes ten times. After one-time treatment, the skin becomes tightened and rejuvenated and is supplemented with the needed nutrition. After a course, the skin improves and turns shiny. After two courses, the skin gets smooth and plump, and its outline becomes clearer gradually. After three courses, the skin's metabolism and detox enhance. And it helps to fade the pigment, lightens dark skin, prevents and delays skin aging, loosening, and sagging, and stimulates collagen hyperplasia in the underlying skin, making the skin tender, smooth, firm, and shiny.

Eye Wrinkle Removal: 45 Minutes/ 2 to 3 Times a Week

--	--	--	---

		<p>15. Do the same on the other side.</p> <p>16. Clean the neck with a hot towel, 2 minutes.</p> <p>17. Apply a neck mask and wait for 15 minutes.</p> <p>18. Clean the neck with a hot towel and use a hot compress for 5 minutes.</p> <p>19. Apply toner, neck essence, neck cream, and sunscreen.</p> <p>20. Treatment is done.</p>	
--	--	--	--

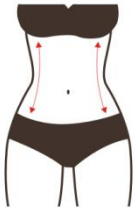

The Recommended Course of Treatment:

A course of treatment includes ten times. After one-time treatment, the skin becomes rejuvenated and delicate. After a course, the neck skin turns smooth, and the circulation of neck lymph accelerates. After two courses, the skin becomes tightened, the cervical stripe fade, and the double chin improves. After three courses, the skin turns delicate, shiny, firm, plump, and lymphatic detox speeds up, dark face and acne improve. It also delays skin aging and rejuvenates the skin.

Waist & Abdomen Sculpting: 45 Minutes/ Once a Week

<p>40K Advised Time: 15 minutes Advise Energy Intensity: between 1 and 7 Mode Selection: Mode A(default) Vacuum RF Advised Time: 15 minutes Suction Time: as long as it's not zero Release Time: set it to zero</p>	<p>Massage Cream(Essential Oil) + Gel + Instrument</p>	<ol style="list-style-type: none"> Technique. Apply essential oil to the abdomen with hands moving circlewise. Repeat three times. Rub the belly back and forth with hands. Repeat 3 to 5 times. Rub abdominal fat as the way of rubbing the spine with hands doing it alternately. Repeat three times. Lift belt vessels of the two sides of the waist with hands doing it alternately. Repeat 16 times. Move in Arabic numeral 8-shaped motion to the part below the waist and then lift upwards from the side of the waist. Repeat three times. Rub intestinal tract with hands overlapped, moving in small circles and clockwise. 	<p>Technique 2. 8</p>  <hr/> <p>Technique 3</p>  <hr/> <p>Technique 4</p>  <hr/> <p>Technique 5</p>
---	--	--	--

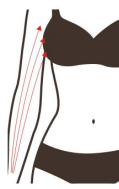

<p>Advise Energy Intensity: between 1 and 7</p> <p>Mode Selection: Mode A(default)</p>		<p>Repeat three times.</p> <p>8. Caress the treated parts with hands moving circlewise. Repeat three times.</p> <p>9. Press Shangwan(RN13), Zhongwan(RN12), Xiawan(RN10), Shenque(RN8), Qihai(RN6), Guanyuan(RN4), Zhongji(RN3), Tianshu(ST25), Daheng(SP15), Qugu(RN2). Repeat two times.</p> <p>10. Push directly from Zhongji(RN3) to the belly button with the thumbs, slide to the parts below the waist along the two sides, then lift upwards to the groin. Repeat three times.</p> <p>11. Caress the treated part till groin with hands.</p> <p>12. Treatment is done.</p> <p>13. 4OK: One side, lift from the side of the waist to belly, and lift one line after another to the groin. Repeat three times.</p> <p>14. Lift the other side. 		<p>abdomen. Repeat three times.</p> <p>22. One side, lift one line after another from the side of the waist to the belly. Repeat three times.</p> <p>23. Treatment is done.</p>	<p>Technique 15</p>  <hr/> <p>Technique 16. 21</p>  <hr/> <p>Technique 20</p> 
--	--	---	--

The Recommended Course of Treatment:

A course of treatment includes ten times. After one-time treatment, the abdomen is heated, which expedites metabolism. After a course, fat metabolizes slowly, slimming starts, and meanwhile, problems like constipation improve. After two courses, the effects become more and more apparent. The skin turns tightened and lifted, collagen in the underlying skin increases, and stretch marks and flabby skin take a turn for the better. After three courses, the effects consolidate, excessive fat disappears little by little, curve of the waist and abdomen shapes, and a slim waist builds.

Arm Sculpting: 60 Minutes/ Once a Week

<p>40K</p> <p>Advised Time: 20 minutes(10 minutes for each side)</p> <p>Advise Energy Intensity: between 1 and 7</p> <p>Mode Selection: Mode A(default)</p>	<p>Massage Cream(Essential Oil) + Gel + Instrument</p>	<ol style="list-style-type: none"> Technique. Do it in left-right order. Lay the arm flatwise, apply oil from the lower arm to the entire arm with hands until the hands slide out, and repeat it three times. Push the entire arm with two palms doing it alternately. Repeat three times. Push Large Intestine Channel[LI]-Triple Energizer Channel[TE]-Small Intestine Channel[SI] of the outer arm 	<p>Technique 2, 3, 4, 5, 6, 7</p>  <hr/> <p>Technique 8. 9</p>

--	--	--	--

The Recommended Course of Treatment:

A course of treatment includes ten times. After one-time treatment, the back gets relaxed obviously, stiffness of shoulder and neck relieves, and skin lifts. After a course, back and shoulder become relaxed, back fat lessens, Dowager's Hump alleviates, and the back outlines become good-looking. After two courses, Dowager's Hump improves, channels and collaterals dredges, sub-health conditions, and sleep take a turn for the better. After three courses, back get thinner, outlines become nice, viscera function enhances, digestion and detox and metabolism boost. (one course with size reduced, two with effect consolidated, and three with effect strengthened and without a rebound.)

Buttocks Sculpting: 45 Minutes/ Once a Week

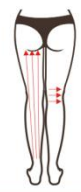

<p>Vacuum RF Advised Time: 30 minutes Suction Time: as long as it's not zero Release Time: set it to zero Advise Energy Intensity: between 1 and 7 Mode Selection: Mode A(default)</p>	<p>Massage Cream(Essential Oil) + Instrument</p>	<p>1. Technique. 2. Stand sideways and with hands applying oil, slide from the sacral region(BL31-BL34) to the waist, and lift upwards along the buttocks. Repeat three times. 3. Push sacral region(BL31-BL34) with thumbs. Repeat three times. 4. Caress the treated part 3 times, then press Shenshu(BL23), sacral region(BL31-BL34), Changgqian(DU1), Huantiao(GB30), and Chengfu(BL36). Repeat three times. 5. Caress the treated part. Repeat three times. 6. Do it in left-right order. Push upwards from thigh root to belt vessel with two hands along Bladder Meridian(BL), Kidney Meridian(KI), Liver Meridian(LI), and Gallbladder Meridian. Repeat three times respectively. 7. Push upwards from thigh root to belt vessel with two hands doing it severally along Bladder Meridian(BL), Kidney Meridian(KI), Liver Meridian(LI),</p>	<p>Technique 2, 5, 11</p> 
		<p>Technique 3</p> 	
		<p>Technique 4</p> 	
		<p>Technique 6, 14, 17</p> 	
		<p>Technique 7. 10</p>	

		<p>and Gallbladder Meridian. Repeat three times respectively.</p> <p>8. Lift from the thigh root to the belt vessel with the palms overlapped. Repeat 3 to 5 times.</p> <p>9. Push directly(for sculpting) and one line after another from the two sides of buttocks to the highest point on it with two hands, and push back and, 3 Repeat three times.</p> <p>10.Repeat technique No.7.</p> <p>11.Caress the treated part.</p> <p>12.Do the same on the other side.</p> <p>13.Treatment is done.</p> <p>14.Vacuum RF: Lift one line after another from the thigh root to the belt vessel. Repeat three times.</p> <p>15.Lift upwards and one line after another from the two sides of buttocks to the highest point. Repeat three times.</p> <p>16.Move in small circles on the full buttocks. Repeat 3 to 5 times.</p> <p>17.Lift one line after another from the thigh root to the belt vessel. Repeat three times.</p> <p>18.Lift upwards and one line after another from the two sides of buttocks to the highest point. Repeat three times.</p> <p>19.Do the same on the other side.</p> <p>20.Treatment is done.</p>	 <hr/> <p>Technique 9, 15, 18</p>  <hr/> <p>Technique 16</p> 
--	--	--	---

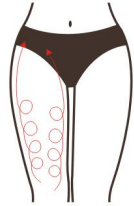

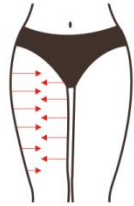

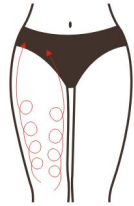

The Recommended Course of Treatment:

A course of treatment includes ten times. After one-time treatment, the buttocks lift and become hot. After a course, buttocks outlines start to show themselves, excess fat decreases slowly, and the skin turns tightened. After three courses, gynecological diseases like cold-natured body and cold uterus relieve, menstruation returns to normal, and the effect consolidates, boosting feminine charm.

Leg Sculpting: 100 Minutes/ Once a Week

<p>40K Advised Time: 40 minutes(10 minutes for each side) Advise Energy Intensity: between 1 and 7 Mode Selection: Mode A(default)</p>	<p>Massage Cream(Essential Oil) + Gel + Instrument</p>	<p>1. Technique. 2. Rear-leg: Let the client lie on his front and treat the left first and the right after. Apply oil from the lower leg to thigh, then back to heel, and repeat it three times. 3. Push the entire leg from the bottom up with palms doing it by turns, and then back to the heel till the palms slide out. Repeat three times. 4. Push Bladder Meridian[BL]-Kidney Meridian[KI]-Liver Meridian[LV]-Gallbladder Meridian[GB] from the bottom up with hands' purlicue doing it by turns. Repeat three times.</p>	<p>Technique 2, 3, 4, 5, 7, 8, 9</p>  <p>Technique 6</p> 
<p>Vacuum RF Advised Time: 40 minutes(10 minutes for each side) Suction Time: as long as it's not zero Release Time: set it to zero Advise Energy Intensity: between 1 and 7 Mode Selection: Mode A(default)</p>		<p>5. Push popliteal fossa with hands doing it alternately. Repeat three times. 6. Twist the leg from the bottom up and back and forth with hands doing it alternately. Repeat three times. 7. Caress the treated part. Repeat three times. 8. Push the four channels and collaterals from the bottom up with kneeling fingers of hands. Repeat three times. 9. Caress the treated part. Repeat three times. 10. Do the same on the other side.</p>	<p>Technique 12, 14, 20, 22</p>  <p>Technique 13. 21</p>  <p>Technique 15, 17, 23</p>

		<p>11. Treatment is done.</p> <p>12. 40K: From the bottom to popliteal fossa, pushing Bladder Meridian(BL)-Kidney Meridian(KI)-Liver Meridian(LV)-Gallbladder Meridian(GB) successively. Repeat three times.</p> <p>13. Move in small circles on the part with the fat of the lower leg to dissolve fat. Repeat three times.</p> <p>14. Push from the bottom up to popliteal fossa successively, and meanwhile, caress it with hands. Repeat three times.</p> <p>15. Start from popliteal fossa, pushing the four channels and collaterals till the thigh root. Repeat three times.</p> <p>16. Start with popliteal fossa, moving in small circles till the thigh root to dissolve fat. Repeat three times.</p> <p>17. Start from popliteal fossa, pushing the channels and collaterals till the thigh root. Repeat three times.</p> <p>18. Moving in small circles on the whole thigh to dissolve fat. Repeat 3 to 5 times.</p> <p>19. Do the same on the other side.</p> <p>20. Vacuum RF: Coupled with hands, lifting one line after another from the heel to the popliteal fossa. Repeat three times.</p> <p>21. Move in small circles on the lower leg. Repeat three times.</p> <p>22. Move up and down on the lower leg. Repeat 3 to 5 times.</p> <p>23. Lift one line after another</p>	 <p>Technique 16, 18, 24</p>  <p>Technique 13. 21</p>  <p>Technique 25</p>  <p>Technique 26</p>  <p>Technique 28, 29, 30, 33, 35, 38, 39, 40</p>

The Recommended Course of Treatment:

A course of treatment includes ten times. After one-time treatment, legs get relaxed, and blood circulation accelerates. After a course, legs become thinner, and a sense of tightening can be felt obviously due to the contraction effect generated by skin collagen tissue. After two courses, legs turn slim and tightened, and it presents an evident effect. After three courses, the effect reinforces.
